

# Mini-Grant Opportunity:

## Innovation Islands: Opening Island Access Through Community-Curated Programming

### Calling all Community Leaders!

Is your community looking for an urban oasis just minutes from Boston's city center? Look no further than the Boston Harbor Islands National and State Park! The 34 islands and peninsulas that make up this park are full of opportunities for outdoor recreation, relaxation, and learning!

In recognition of the 25th anniversary of the establishment of Boston Harbor Islands National and State Park, we are planning for a year of robust programming and community engagement. We want YOU to help us engage with your community and welcome them into the park.

The Boston Harbor Islands Partnership will award micro-grants up to the amount of \$4,500.00 to local community leaders to design, promote, and facilitate park-based programming that meets the unique needs of their constituents. These micro-grants seek to empower and invest community members, amplifying their impact, voices, and presence within our recreational spaces.
