November 17, 2022

To the members of the MWRA Board of Directors

We are pleased to submit to you this Annual Comprehensive Financial Report (Annual Report) of the Massachusetts Water Resources Authority (MWRA) for the years ended June 30, 2022 and 2021. This document has been submitted to the Government Finance Officers Association to be awarded a Certificate of Achievement for Excellence in Financial Reporting. The financial section of this Annual Report includes management's discussion and analysis, the basic financial statements and the combining financial statements and schedules, as well as the independent auditors' report on these financial statements.

As required by generally accepted accounting principles (GAAP), MWRA management is responsible for the accuracy, completeness, and fairness of the presentation, including all disclosures. Management's discussion and analysis provides an overview of the MWRA's financial results. This letter of transmittal is designed to complement management's discussion and analysis and should be read in conjunction with it. Management's discussion and analysis can be found immediately following the Independent Auditors' Report.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

### MISSION

The Massachusetts Water Resources Authority is an independent authority that provides wholesale water and sewer services to its member communities and funds its operations primarily through member community assessments and charges. MWRA's mission is to provide reliable, cost-effective, high-quality water and sewer services that protect public health, promote environmental stewardship, maintain customer confidence, and support a prosperous economy. During the COVID-19 pandemic, MWRA has maintained all core functions without interruption.

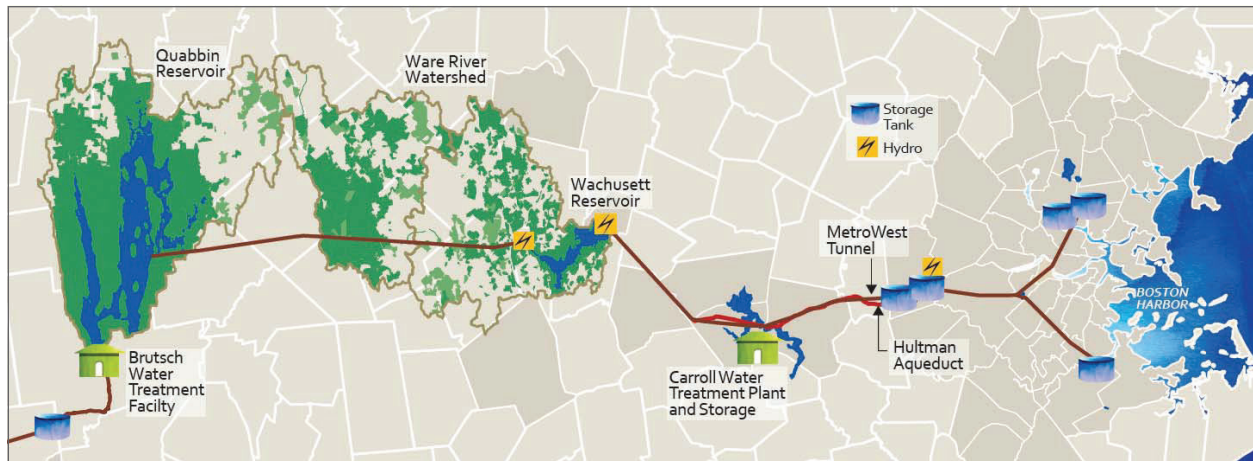

### HISTORY

Created by the Massachusetts legislature in 1985 (Chapter 372 of the Acts of 1984, as amended, "the Enabling Act"), MWRA assumed control of the water and sewer systems, including facilities, properties, and the right to utilize water withdrawn from system reservoirs that had formerly been the Sewerage and Waterworks Divisions of the Commonwealth of Massachusetts ("the Commonwealth") Metropolitan District Commission (MDC). The Commonwealth, under the management of the MDC Watershed Management Division (now the Department of Conservation and Recreation – Division of Watershed Management), retained ownership of all real property comprising the water and sewer systems, including the reservoirs and watersheds, the maintenance of which are included in MWRA's operating budget.

In 1985, responsibility for water distribution for 46 municipalities and sewage collection and treatment for 43 municipalities was transferred to the MWRA. In 1987, the legislature also transferred responsibility to operate and maintain the Clinton Wastewater Treatment Plant from the Commonwealth to the MWRA. New communities have the opportunity to join the MWRA water system, and over the years, the number of water communities has increased to 53. MWRA's facilities span from the Quabbin Reservoir in western Massachusetts to the Deer Island Treatment Plant in Boston Harbor. In Fiscal Year 2022, the systems served approximately 3 million people and more than 5,500 businesses.

The Enabling Act also established the MWRA Advisory Board to represent the cities and towns in the service area. The Advisory Board appoints three members of the MWRA Board of Directors, approves the extension of water and sewer services to additional communities, and reviews and makes recommendations on MWRA's annual Current Expense Budget and Capital Improvement Program.

## WATER SYSTEM

MWRA's water comes from the Quabbin Reservoir, 65 miles west of Boston, and the Wachusett Reservoir, 35 miles west of Boston. The Quabbin alone holds a five-year supply of water.

The Quabbin and Wachusett Reservoirs are well protected. Over 85% of the watershed lands that surround the reservoirs are covered in forest and wetlands. About 75% of the total watershed land cannot be built on. The natural undeveloped watersheds help to keep MWRA water clean and clear. Because the watersheds are well-protected, the water in the Quabbin and Wachusett Reservoirs is of very high quality. MWRA has won numerous awards for quality, taste, and sustainability.

Ozone And UV Generators at the John J. Carroll Water Treatment Plant

Water for most MWRA communities is treated at the John J. Carroll Water Treatment Plant in Marlborough with two state-of-the-art methods – ozone and UV light. The treated water leaves the plant through the MetroWest Water Supply Tunnel and the Hultman Aqueduct. Along the way, it is stored in covered tanks. From there it is drawn into distribution mains and many smaller community pipes. Three member communities receive water directly from the Quabbin Reservoir: Chicopee, South Hadley Fire District #1 and Wilbraham. That water is treated at the Brutsch Water Treatment Facility in Ware and leaves the plant through the Chicopee Valley Aqueduct.

Meters installed by the member communities measure the amount of water delivered to each home or business.

Over 85% of the water delivered is via gravity, and, as the water travels through the system, electricity is generated at four hydroelectric facilities.

To maintain and ensure water quality, MWRA conducts hundreds of thousands of analyses each year as water travels from the well-protected reservoirs all the way to household taps, including over 1,600 bacteria samples per month. In addition, MWRA uses real-time water quality monitoring throughout the system to immediately identify any issues with water quality.

Since its inception, MWRA has promoted water conservation among its member communities, requiring each to perform bi-annual leak detection surveys and providing educational materials to residents and students. Since 1985, the average annual water demand in the MWRA service area has decreased by over 130 million gallons.

## WASTEWATER SYSTEM

Deer Island Wastewater Treatment Plant

Because of inadequate sewage treatment facilities, Boston Harbor was known as the dirtiest harbor in the country in the 1980s. The Deer Island Treatment Plant was constructed in the 1990s as part of the federal court mandated Boston Harbor Clean-up Project, which is widely recognized as a national environmental success story. The Charles River—once the inspiration for the song “Love that Dirty Water” now receives high marks for water quality, and Boston’s beaches are among the cleanest urban beaches in the nation.

MWRA also operates the smaller Clinton Wastewater Treatment Plant, which serves the Town of Clinton and the Lancaster Sewer District.

Wastewater is flushed through a building’s pipes into the community’s sewers. More than 5,100 miles of local sewers transport the flows from 45 communities into 227 miles of MWRA interceptor sewers. The interceptor sewers carry the region’s wastewater to 2 MWRA treatment plants. Most communities’ wastewater flows to the Deer Island Treatment Plant.

Before the flows reach the plant, they receive preliminary treatment at five headworks facilities that screen out larger objects, such as bricks and logs. These flows are then pumped through tunnels to the plant and receive Primary Treatment in settling tanks where up to 60% of the solids settle out as a mixture of sludge and water.

During Secondary Treatment, oxygen is added to the wastewater to speed up the growth of microorganisms. These microbes then consume the wastes and settle to the bottom of the secondary settling tanks. After secondary treatment, 80-90% of human waste and other solids have been removed.

The treated wastewater, or effluent, is disinfected and discharged through a 9.5-mile underwater tunnel into Massachusetts Bay. The effluent is dispersed over the last mile and a quarter of the tunnel through 55 “diffusers.” With water depths

up to 120 feet, the outfall provides a much higher rate of mixing and dilution than was possible with discharges into the shallow waters of Boston Harbor prior to construction of the new Deer Island Plant.

The remaining sludge from primary and secondary treatment is processed further in digesters, where it is mixed and heated to reduce its volume and stabilize biosolids. It is then transported through the Inter-Island Tunnel to the pelletizing plant in Quincy where it is dewatered, heat-dried, killing disease-causing bacteria, and reused as a fertilizer for use in agriculture, forestry and land reclamation.

MWRA also utilizes renewable energy at the Deer Island Treatment Plant, with wind, solar, hydroelectric and biogas systems. The plant currently generates over 50% of its total energy needs.

Wind turbines and solar panels at the Deer Island Wastewater Treatment Plant

Pleasure Bay Beach, South Boston

## RATES AND CHARGES

Over 95% of MWRA's budgeted revenues are derived from wholesale rates and charges assessed to member communities. The Enabling Act requires MWRA to set its rates and charges at levels sufficient to pay, among other things, its current expenses and its debt service, and to provide debt service coverage required by MWRA's General Bond Resolution ("the Resolution").

In accordance with the Enabling Act, MWRA's rate setting is exercised independently by its Board of Directors without being subject to the approval of any department, agency or other instrumentality of the Commonwealth of Massachusetts or any other governing body. MWRA establishes charges of general application separately for the services provided by the Waterworks System and the Sewer System. Rates and charges are adopted annually in June, after notice and public hearing, and review of non-binding recommendations by the MWRA Advisory Board. MWRA's charges for services are billed directly to the member communities on a wholesale basis. Member communities include cities, towns, and other governmental entities tasked with providing retail water and/or sewer services.

In setting water rates, the total amount of revenue that must be raised through water rates in a given fiscal year is identified through a budgeting process, net of other sources of anticipated revenue, such as investment income, receipts from water supply contracts and other special arrangements. Generally, charges for water services are computed on the basis of the proportioned metered water use of each member community for the immediately preceding calendar year.

Sewer charges are computed on a proportional allocation basis utilizing, among other things, total flow, contributing population and census population for each member community. Consistent with the initial step in setting water rates, MWRA first determines the total amount of revenue required to be raised from sewer charges. The total amount of required revenue for the Sewer System is allocated either to operating costs or capital costs, based on a three-year average of total flows for operating costs and total flows, census information and other factors for capital costs.

MWRA has adopted policies to enforce collection of member community assessments, including use of local aid intercept. Local aid intercept would allow MWRA, after certification to the State Treasurer of any unpaid assessment, to instruct the State Treasurer to deduct unpaid assessment amounts from any state reimbursement, grant or local aid to cities and towns that are member communities and remit that amount to the MWRA. The local aid intercept is not available, however, for any non-municipal member community. Fortunately, MWRA has not needed to use local aid intercept in more than 20 years.

## CAPITAL IMPROVEMENT PROGRAM

Since its establishment, MWRA has invested over \$8.9 billion to improve the wastewater and waterworks systems. MWRA was created in response to and has been subject for most of its existence to a Clean Water Act enforcement action (Boston Harbor Case) to end years of wastewater pollution of Boston Harbor and its tributaries from the old Deer Island and Nut Island treatment plants and combined sewer overflows (CSOs). In 1982 and 1983, civil suits were filed against the MDC and other state agencies claiming that the Massachusetts Clean Waters Act had been violated as a result of discharges of untreated and partially treated sewage from Nut and Deer Islands. The Commonwealth, the Boston Water and Sewer Commission that provides retail water and sewer services within the city of Boston, the City of Quincy and the Town of Winthrop are also parties to the case.

The order of the federal court in the Boston Harbor Case set forth the schedules of activities to be undertaken to achieve compliance with the law. Since 1985, MWRA has complied with 420 milestones, which included the completion of extensive new wastewater treatment facilities at Deer Island in Boston and Nut Island in Quincy, a residuals processing facility in Quincy, and 35 separate CSO control projects in Boston, Brookline, Cambridge, Chelsea and Somerville which comprise the long-term CSO control plan, the last of which was completed in December 2015, in compliance with the Court Ordered milestone.

The Authority commenced the performance assessment in 2017, with the final performance assessment report originally due in December 2020. At the request of the Authority, with the assent of EPA and DEP, the Court extended the time for the Authority to submit the final report to December 2021.

On December 30, 2021, the Authority filed its Performance Assessment Report and Interim Update (“Final Report”) with the Court. The Final Report documents the substantial reduction in CSO discharge volumes over the last several decades. The Authority also reported that there are certain outfalls where CSO discharge estimates indicated higher CSO activity than the Long-Term CSO Control Plan (LTCP) goals. As of the end of 2021, the LTCP goals for average annual CSO activation and volume were met, or materially met, at 70 of the 86 CSO outfalls for which performance targets were defined. Of the 16 remaining CSO outfalls that did not meet the LTCP goals, The Authority developed plans to enable six of these CSO outfalls to meet LTCP goals by 2024. With respect to the remaining 10 CSO outfalls, the Authority has identified potentially feasible alternatives that may enable four of these outfalls to achieve LTCP volume and activation goals. There are at least six CSO outfalls that remain challenging.

During the same time, MWRA also complied with regulatory mandates to improve and modernize the waterworks facilities, including the MetroWest Water Supply Tunnel, the Carroll Water Treatment Plant, and seven covered water storage facilities.

The mandated projects account for most of the Capital Improvement Program (CIP) spending to date. The five initiatives below account for over \$6.0 billion, or 70% of spending to date:

Norumbega Covered Storage Facility in Weston

- Boston Harbor Clean-up Project - \$3.8 billion
- CSO Control Plan - \$919 million
- MetroWest Water Supply Tunnel - \$697 million
- Carroll Water Treatment Plant - \$428 million
- Covered Storage Facilities - \$239 million

As MWRA matures as an agency, the infrastructure modernization and new facilities construction phase is nearing completion, and, barring new mandates, most of the future capital budget will be designated for Asset Protection, Water System Redundancy, Pipeline Replacement and Rehabilitation, and Business System Support. Asset Protection focuses on the preservation of capital assets. Water System Redundancy aims to reduce the risks of service interruption and allow for planned maintenance of the water system assets.

Long-term water redundancy is expected to be the largest future CIP initiative and includes two new tunnels with estimated spending in excess of \$1.5 billion over the next 17 years. Pipeline Replacement and Rehabilitation focuses on the maintenance and replacement of water and sewer pipelines. Business System Support provides for the continuing improvement and modernization of technology and security systems.

Capital initiatives to date have been primarily funded through long-term borrowings in the form of tax-exempt bonds, and the debt service on these outstanding bonds represents a significant and growing portion of the MWRA's operating budget. As of June 30, 2022, MWRA's total debt was \$4.5 billion. The capital finance obligation as a percent of total expenses has increased from 36% in 1990 to 62.4% in the Final FY2022 Current Expense Budget.

MWRA's senior credit ratings of Aa1 from Moody's, AA+ from S&P, and AA+ from Fitch, reflect strong management of financial performance, application of operating surpluses to early debt defeasance, satisfactory debt service coverage ratios, well maintained facilities, comprehensive long-term planning of both operating and capital needs, and the strong credit quality of its member service communities.

The long-term strategy for capital work is identified in the MWRA's Water and Wastewater Master Plans, which were published in 2006, and updated in 2013, and in 2019. Spending projections are the result of prioritizing the projects, establishing realistic estimates based on the latest information, striking a balance between maintenance and infrastructure improvements, and ensuring that there is adequate support for MWRA's core operations to meet all regulatory operating permit requirements.

#### AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to MWRA for its Annual Comprehensive Financial Report (Annual Report) for the fiscal year ended June 30, 2021. This was the fourth year that MWRA applied for and received this prestigious award. In order to be awarded a Certificate of Achievement, MWRA had to publish an easily readable and efficiently organized Annual Report that satisfied both generally accepted accounting principles and applicable program requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. However, we believe that our current Annual Report continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

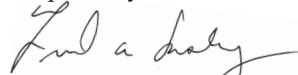

MWRA also received the Government Finance Officers Association's Distinguished Budget Presentation Award for its annual budget document dated September 2021. To qualify for the Distinguished Budget Presentation Award, the government's budget document had to be judged proficient as a policy document, a financial plan, and operations guide, and communications device.

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of MWRA's Finance Division. We wish to thank all MWRA departments for their assistance in providing the data necessary to prepare this report. Credit is also due to the MWRA Board of Directors for their unfailing support for maintaining the highest standards of professionalism in the management of the MWRA's finances.

#### INDEPENDENT AUDIT

The Enabling Act requires that the MWRA's financial statements be audited annually by an independent certified public accounting firm. The MWRA General Bond Resolution and certain loan agreements, by reference, specify that the audit be conducted by independent accountants of nationally recognized standing and be satisfactory to the Trustee. The financial section of the 2022 Annual Comprehensive Financial Report begins with the report of our independent auditors, CliftonLarsonAllen LLP. This report expresses an unmodified opinion as to the fairness of the presentation of our financial statements.

Massachusetts Water Resources Authority  
Boston, Massachusetts

### Report on the Audits of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the business-type activities and fiduciary activities of the Massachusetts Water Resources Authority (Authority) as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the Authority as of June 30, 2022 and 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Emphasis of Matter*

As discussed in Note 2 to the financial statements, effective July 1, 2020, the Authority adopted new accounting guidance for leases. The guidance requires lessees to recognize a right-to-use lease asset and corresponding lease liability and lessors to recognize a lease receivable and corresponding deferred inflow of resources for all leases with lease terms greater than twelve months. Our opinion is not modified with respect to this matter.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and certain pension and other postemployment benefits schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority’s basic financial statements. The Schedule of Accounts Established by the General Revenue Bond Resolution, Combining Statements of Net Position, Combining Statements of Revenues, Expenses, and Changes in Net Position, Combining Statements of Fiduciary Net Position, and Combining Statements of Changes in Fiduciary Net Position (Supplemental Schedules) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the Supplemental Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the Introductory and Statistical Sections but does not include the basic financial statements and our auditors’ report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2022, on our consideration of the Authority’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority’s internal control over financial reporting and compliance.

## Management's Discussion and Analysis – Required Supplementary Information

June 30, 2022 and 2021

(Unaudited)

This section of the Authority's annual financial report presents our discussion and analysis of the Authority's financial performance during the fiscal years ended June 30, 2022 and 2021. Please read it in conjunction with the Authority's financial statements, which immediately follow this section.

**Financial Highlights – Fiscal Year 2022**

The fiscal year 2022 customer service revenues were approximately \$805.7 million. Of this amount, rate revenues represent approximately 98.3%, or \$792.1 million, and were \$22.7 million higher than fiscal year 2021. This was due to an increase in assessments.

Total operating expenses, excluding depreciation, were approximately \$281.3 million in fiscal year 2022. The 3.5% decrease in total operating expenses over fiscal year 2021 is the result of decreases in pension expense of \$5.7 million, OPEB expense of \$5.8 million, personnel cost of \$3.6 million and Harbor Energy Electric Company (HEEC) capacity and O & M charges of \$3.5 million. These decreases were offset by increases in utility costs of \$7.5 million.

Net non-operating expenses increased \$8.8 million, or 5.4%, primarily due to a \$11.4 million reduction in interest expense offset by a \$20.1 million decrease in investment income. Interest expense decreased due to a combination of principal repayments and refunding/defeasance of outstanding debt. Interest income decreased due to a decrease in the unrealized gain on investments (\$21.1 million) offset by an increase in actual interest earned on investments (\$1.0 million).

Total assets at June 30, 2022 were approximately \$6.8 billion, a \$242.3 million, or 3.4%, decrease over total assets at June 30, 2021.

On December 9, 2021, the Authority issued General Revenue Bonds, 2021 Series B for \$60,635 and General Revenue Refunding Bonds (Federally Taxable), 2021 Series C for \$687,395.

The proceeds from the Series B bonds were used to permanently finance outstanding tax-exempt commercial paper of \$75,000. The interest rate on these bonds are 5%.

The proceeds from the Series C bonds were used to refund \$53,885 of General Revenue Bonds 2014 Series D, \$47,590 of General Revenue Bonds 2016 Series B, \$43,830 of General Revenue Refunding Bonds 2013 Series A and \$72,870 of General Revenue Refunding Bonds 2014 Series F, \$317,700 of General Revenue Refunding Bonds 2016 Series C, \$52,190 of General Revenue Refunding Bonds 2016 Series D. The interest rate of these bonds range from 0.53% to 2.97%.

Total capital assets (net of depreciation) were approximately \$5.6 billion at June 30, 2022, an \$89.8 million, or 1.6%, decrease over June 30, 2021. The decrease was primarily due to the rate of depreciation being higher than the rate of capitalization.

**Financial Highlights – Fiscal Year 2021**

The fiscal year 2021 customer service revenues were approximately \$781.4 million. Of this amount, rate revenues represent approximately 98.5%, or \$769.4 million, and were \$8.5 million higher than fiscal year 2020. This was due to an increase in assessments.

Total operating expenses, excluding depreciation, were approximately \$291.4 million in fiscal year 2021. The 0.8% decrease in total operating expenses over fiscal year 2020 is the result of decreases in pension expense of

## MASSACHUSETTS WATER RESOURCES AUTHORITY

June 30, 2022 and 2021

(Unaudited)

\$10.2 million, OPEB expense of \$6.4 million and utilities expense of \$1.3 million. These decreases were offset by increases in personnel costs of \$2.8 million, Harbor Energy Electric Company (HEEC) capacity and O & M charges of \$5.8 million and reimbursements to the Commonwealth of \$3.8 million.

Net non-operating expenses increased \$8.1 million, or 5.2%, primarily due to an \$11.8 million reduction in interest expense offset by a \$20.3 million decrease in investment income. Interest expense decreased due to a combination of principal repayments and refunding/defeasance of outstanding debt. Interest income decreased due to a decrease in the unrealized gain on investments (\$11.7 million) and a decrease in actual interest earned on investments (\$8.6 million).

Total assets at June 30, 2021 were approximately \$7.1 billion, a \$129.6 million, or 1.8%, decrease over total assets at June 30, 2020.

During fiscal year 2021, the Authority issued General Revenue Bonds, 2020 Series B for \$160 million. The proceeds from these bonds will be used to finance new construction projects. The interest rate on these bonds is 5%.

Total capital assets (net of depreciation) were approximately \$5.7 billion at June 30, 2021, a \$96.5 million, or 1.7%, decrease over June 30, 2020. The decrease was primarily due to the rate of depreciation being higher than the rate of capitalization.

### **Overview of the Financial Statements**

The financial section of this annual report consists of four parts: management's discussion and analysis (this section), the financial statements and related notes to the financial statements, required supplementary information, and other supplementary information.

The financial statements provide both long-term and short-term information about the Authority's overall financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information and other supplementary information that further explains and supports the information in the financial statements.

#### Changes in Net Position

The increase in net position at June 30, 2022 was \$79.0 million, or 5.3%, as compared with June 30, 2021. The Authority's total operating revenues increased by 3.3% to \$811.9 million and total operating expenses decreased 3.5% to \$281.3 million.

The decrease in net position at June 30, 2021 was \$40.0 million, or 2.6%, as compared with June 30, 2020. The Authority's total operating revenues increased by 1.0% to \$786.1 million and total operating expenses decreased 0.8% to \$291.4 million.

## Management’s Discussion and Analysis – Required Supplementary Information

June 30, 2022 and 2021

(Unaudited)

### Operating Costs by Functionality

(Dollars in thousands)

	2022	2021	2020	Percentage change 2022–2021	Percentage change 2021–2020
Wastewater treatment and transport	\$ 107,476	\$ 101,884	\$ 103,627	5.5%	(1.7%)
Water treatment and transport	39,922	39,982	38,040	(0.2)	5.1
Water and wastewater quality	9,975	10,678	10,433	(6.6)	2.3
Metering and monitoring	6,672	6,694	6,420	(0.3)	4.3
Facilities planning, design, and construction	11,388	12,289	12,712	(7.3)	(3.3)
Management information systems	12,573	13,219	12,225	(4.9)	8.1
Administration and support	54,109	54,721	52,281	(1.1)	4.7
Total direct operating costs	<u>242,115</u>	<u>239,467</u>	<u>235,738</u>	1.1	1.6
Indirect operating costs	<u>39,177</u>	<u>51,903</u>	<u>57,889</u>	(24.5)	(10.3)
 Total operating costs	 <u>\$ 281,292</u>	 <u>\$ 291,370</u>	 <u>\$ 293,627</u>	 <u>(3.5%)</u>	 <u>(0.8%)</u>

Increases in wastewater treatment and transport were mainly due to the increase in the contracted O & M costs at the palletization plant. Water and wastewater quality costs decreased due to increases in vacant positions. Facilities planning, design and construction costs also decreased due to an increase in vacant positions. MIS costs decreased as costs associated with the initial outlay of expenses related to teleworking decreased.

### Retirement Benefits

The Massachusetts Water Resources Authority Employees’ Retirement System (System) was established to provide pension benefits to Massachusetts Water Resources Authority (Authority) employees and their beneficiaries. The System is governed by a five-member board comprised of the Secretary of the Authority’s Board (ex-officio), two members elected by the System’s participants, one member appointed by the Authority’s Board and one member appointed by the System’s Board members.

The System has total plan assets of \$729 million and \$649 million at December 31, 2021 and 2020, respectively.

### Other Post-Employment Benefits (OPEB) Irrevocable Trust

In April 2015, the Authority established the MWRA Other Post-Employment Benefits (OPEB) Irrevocable Trust. The Trust was established for the sole purpose of providing for the advance funding of future costs of retired employee health insurance and other benefits provided to retirees. It is intended that the Trust shall constitute a “Qualified OPEB Trust” according to the standards set forth in GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* and the standards of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The Authority’s Board of Directors appointed a five-member Board of Trustees, made up of Authority senior managers, to control and manage the trust.

An initial deposit of \$10.8 million was made to the trust upon establishment of the trust. The balance of the trust at June 30, 2022 and 2021 was \$63.9 million and \$61.8 million, respectively.

### Capital Assets and Debt Administration

#### Capital Assets

As of June 30, 2022 and 2021, the Authority had \$5.6 and \$5.7 billion of capital assets (net of depreciation), respectively. This includes land, construction in progress, plant and equipment for the water and sewer systems, leased building, furniture and fixtures, leasehold improvements, and motor vehicles and equipment. The Authority's net capital assets decreased approximately \$89.8 million, or 1.6%, during fiscal year 2022, primarily due to the rate of depreciation being higher than the rate of capitalization.

<b>Capital Assets</b>					
(Net of depreciation, dollars in thousands)					
	2022	2021	2020	Percentage change 2022–2021	Percentage change 2021–2020
Land	\$ 30,058	\$ 30,058	\$ 29,936	-	0.4%
Construction in progress	172,476	228,033	214,102	(24.4)	6.5
Plant and equipment, water, and sewer systems	5,347,916	5,380,198	5,489,566	(0.6)	(2.0)
Leased building	12,377	13,615	14,853	(9.1)	(8.3)
Furniture and fixtures	30	36	42	(16.7)	(14.3)
Leasehold improvements	231	243	255	(4.9)	(4.7)
Motor vehicles and equipment	5,994	6,693	6,623	(10.4)	1.1
Total	<u>\$ 5,569,082</u>	<u>\$ 5,658,876</u>	<u>\$ 5,755,377</u>	<u>(1.6%)</u>	<u>(1.7%)</u>

Additional information on the Authority's capital assets can be found in Note 8 of this financial report.

#### Debt Administration

The Authority's bond sales must be approved by its board of directors (the Board) and must comply with rules and regulations of the United States Treasury Department. Neither the Commonwealth of Massachusetts (the Commonwealth) nor any political subdivision thereof shall be obligated to pay the principal of, or premium or interest on, any debt outstanding and neither the faith and credit nor the taxing power of the Commonwealth or any political subdivision thereof is pledged to such payment.

#### Bond Resolutions

Pursuant to its general bond resolution, the Authority must comply with a rate covenant that requires it to set rates to maintain revenues sufficient to pay current expenses; debt service on indebtedness; required deposits to reserves; costs of maintenance, replacement, and/or improvements to the wastewater and water systems that are considered current expenses and any additional amounts the Authority may be required to pay by any law or contract.

In addition to the rate covenant, the Authority is required to meet two covenants with respect to debt service coverage. The primary debt service coverage requires that the Authority fix and adjust rates and charges to provide revenues available for bond debt service in an amount equal to 1.2 times that is required for debt service on all outstanding bonds, not including subordinated bonds. The subordinated debt service coverage requires that the Authority fix and adjust rates and charges to provide revenues available for bond debt service in an amount equal to 1.1 times that is required for debt service on all outstanding bonds, including subordinated bonds.

Additional information on the Authority's long-term debt can be found in Note 6 of this financial report.

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2022 and 2021

(Unaudited)

## ***Credit Rating***

The Authority's \$3.1 billion Senior Lien General Revenue Bonds are rated Aa1 from Moody's Investors Service, AA+ by S&P Global Ratings and AA+ from Fitch Ratings. The \$532.8 million Subordinate Lien General Revenue Bonds are rated Aa2 from Moody's Investors Service, AA by S&P Global Ratings and AA from Fitch Ratings. Some of the Authority's revenue bonds are enhanced by bond insurance. The credit ratings of these bond series will be the higher rating of either the Authority or the firm providing the enhancement. In the case of bonds enhanced by a letter of credit, the rating will be the highest of the Authority's, the provider or, if available, a joint rating. The subordinated debt of \$822 million with the Massachusetts Clean Water Trust is not rated as the Authority's debt.

## ***Economic Factors and Next Year's Budget***

In June 2022, the Board approved the fiscal year 2023 Current Expense Budget (CEB), which totals \$840.2 million in expenses.

The \$840.2 million expense total is comprised of \$506 million (60.2%) in capital financing costs and \$334.2 million (39.8%) in operating expenses, of which \$273.7 million (81.9%) is for direct expenses and \$60.5 million (18.1%) is for indirect expenses. The total represents an increase of \$51.4 million from fiscal year 2022 spending, which is comprised of \$37.3 million in higher operating costs and \$14.1 million in higher debt service costs.

The fiscal year 2023 rate revenue requirement approved by the Board is \$814.6 million; an increase of 2.85% compared with the fiscal year 2022 budget.

Fiscal year 2023 budgeted nonrate revenue totals \$25.6 million, a decrease of \$2.1 million from actual fiscal year 2022 nonrate revenue. The nonrate revenue budget is comprised of \$8.6 million in investment income, \$15.8 million in other user charges and other revenue, \$0.98 million in use of rate stabilization and \$0.2 million in entrance fees.

## ***Covid-19 Response***

In May 2020, the Board also approved allocation of Commonwealth of Massachusetts Debt Service Assistance, \$0.9 million, to offset June 2020 community assessment payments. The Board further approved a one-time exemption to community loan program guidelines to defer loan repayments in fiscal years 2021 and 2022.

## ***CIP 10 Year Plan***

The Authority's planned spending for capital improvements in future years reflects the Authority's ongoing efforts to upgrade and maintain the system and to align its project prioritization process with the Master Plan.

Major planned and ongoing projects include:

- Commitment to long-term redundancy plan for the metropolitan water tunnel system.
- Improvement and replacement of equipment on Deer Island and at major headworks facilities to ensure continued efficient and effective operations.

## MASSACHUSETTS WATER RESOURCES AUTHORITY

Management's Discussion and Analysis – Required Supplementary Information

June 30, 2022 and 2021

(Unaudited)

- Continued asset protection projects for both wastewater and water systems (pump stations and pipelines).
- Dedication to using resources efficiently, responding to climate change and reducing the environmental impacts of the Authority's daily operations by installing alternative energy sources and promotion of improved self-generation.
- Enhanced commitment to the community assistance programs for both the sewer and water systems to improve local infrastructure, including an initiative to provide interest-free loans to assist communities in replacing lead service lines.
- Continued investment for the upgrade of Management Information Systems to ensure the availability, integrity and security of data.
- Continue the Residuals Asset Protection program for maintaining and improving the operations and infrastructure of the biosolids processing in the long term.
- Improvement and replacement of equipment at CWTP to ensure continued efficient and effective operations.

### **Contacting the Authority's Financial Management**

This report is designed to provide our bondholders, member communities and other interested parties with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the revenue it receives. If you have questions about this report or need additional information, contact the Massachusetts Water Resources Authority, Finance Division, 100 First Avenue, Boston, MA 02129.

## Statements of Cash Flows

Years ended June 30, 2022 and 2021

(Dollars in thousands)

	<b>2022</b>	<b>2021</b>
Cash flows from operating activities:		
Cash received from customers	\$ 805,316	\$ 781,376
Cash paid to suppliers for goods and services	(173,659)	(129,810)
Cash paid to employees for services	(137,262)	(143,631)
Cash paid in lieu of taxes	(8,469)	(8,368)
Other operating receipts	6,134	4,701
Net cash provided by operating activities	492,060	504,268
Cash flows from capital and related financing activities:		
Proceeds from sale of revenue bonds, loans, and notes	94,961	224,205
Capital grants for construction	3,299	4,314
Debt service grant	1,182	1,288
Principal paid on leases payable	(1,423)	(1,210)
Interest paid on leases payable	(1,794)	(1,739)
Repayment of debt	(368,679)	(294,686)
Interest paid on debt	(164,783)	(186,396)
Plant expenditures	(140,366)	(152,344)
Net cash used for capital and related financing activities	(577,603)	(406,568)
Cash flows from investing activities:		
Purchases of short-term investments	(33,541)	(208,415)
Sales and maturities of short-term investments	31,950	59,863
Changes in restricted money market investments	85,008	45,508
Interest received	5,426	4,417
Net cash provided (used) for investing activities	88,843	(98,627)
Net increase (decrease) in cash and cash equivalents	3,300	(927)
Cash and cash equivalents - beginning of year	69,931	70,858
Cash and cash equivalents - end of year	\$ 73,231	\$ 69,931
Reconciliation of operating income to net cash provided by operating activities:		
Operating income	315,483	\$ 280,271
Adjustments to reconcile operating income to net cash provided by operating activities:		
Depreciation and amortization	215,079	214,478
Change in net pension liability	(44,458)	(10,171)
Change in deferred outflows from pension	13,237	(10,864)
Change in deferred inflows from pension	26,716	23,473
Change in net OPEB liability	(25,213)	(14,049)
Change in deferred outflows from OPEB	(4,223)	1,946
Change in deferred inflows from OPEB	12,110	(1,392)
Change in other accounts	4,909	5,312
Change in accounts payable	(21,580)	15,264
Net cash provided by operating activities	\$ 492,060	\$ 504,268

### NONCASH CAPITAL AND RELATED FINANCING ACTIVITIES

In fiscal 2022, general revenue refunding bonds in the aggregate principal amount of \$687,395 were issued to refund \$588,065 of bonds outstanding.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### (1) Organization

The Massachusetts Water Resources Authority (the Authority) was established in January 1985 pursuant to Chapter 372 (the Enabling Act) of the Act of 1984 of the Commonwealth of Massachusetts (the Commonwealth). The Authority, a successor agency to certain functions of the Metropolitan District Commission (the MDC) (which became part of the Department of Conservation and Recreation (the DCR) in July 2003), is a public instrumentality and, effective July 1, 1985, provides water supply services and sewage collection, treatment, and disposal services to areas of the Commonwealth.

The Authority is governed by an 11-member board of directors (the Board) chaired by the Secretary of Energy and Environmental Affairs for the Commonwealth. The Secretary and two other members are appointed by the Governor. Three members of the Board are appointed by the Mayor of Boston and three are appointed by the Authority's Advisory Board. One member is appointed by the Mayor of Quincy and one by the Winthrop Council President.

The Authority has also considered all component units for which it is financially accountable as well as other organizations for which the nature and /or significance of their relationship with the Authority are such that exclusion would cause the Authority's basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the Authority (primary government) and its component units.

The Authority has included entities as fiduciary fund component units in the reporting entity because of the significance of their operational and financial relationship with the Authority. Component units are entities that are legally separate from the Authority, but are so closely related that they are, in substance, the same as the Authority or entities providing services entirely or almost entirely for the benefit of the Authority.

#### Fiduciary Fund Component Units

The Massachusetts Water Resources Authority Employees' Retirement System (Pension Trust) was established to provide pension benefits to Authority employees and their beneficiaries. The Pension Trust is governed by a five-member board comprised of the Secretary of the Authority's Board (ex-officio), two members elected by the Pension Trust's participants, one member appointed by the Authority's Board and one member appointed by the Pension Trust's Board members. The Pension Trust is presented using the accrual basis of accounting and is reported in the Pension (and Other Employee Benefit) Trust Funds in the fiduciary funds financial statement. The Pension Trust's year end is December 31<sup>st</sup>.

The Massachusetts Water Resources Authority Irrevocable OPEB Trust ( OPEB Trust) is a single-employer other post-employment benefits (OPEB) plan, for the purpose of accumulating and investing assets to fund certain post-retirement medical and life insurance for retirees of the Authority. The Board of Trustees is composed of five members including the following Authority employees: Executive Director, Director of Finance, Treasurer, Budget Director and Director of Human Resources. The OPEB Trust is presented using the accrual basis of accounting and is reported in the Pension (and Other Employee Benefit) Trust Funds in the fiduciary funds financial statement. The OPEB Trust's year end is June 30<sup>th</sup>.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Complete financial statements for the Trusts can be obtained from the Authority's administrative offices at Charlestown Navy Yard, 100 First Avenue, Boston, MA 02129.

### **(2) Summary of Significant Accounting Policies**

The accounting policies of the Authority conform to U.S. generally accepted accounting principles as applicable to government enterprises. The following is a summary of the Authority's significant accounting policies:

#### ***(a) Basis of Presentation***

The Authority is required by the Enabling Act to establish user rates for its water and sewer services which provide sufficient funds to recover the costs of operations (excluding depreciation), debt service, maintenance, replacements, improvements to its facilities, and appropriate reserves. The Authority's financial statements are reported on the accrual basis of accounting and the economic measurement focus as specified by the Governmental Accounting Standards Board's (GASB) requirements for an enterprise fund.

The Authority distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing water and sewer services to its member communities. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses, with the exception of regulatory provisions as discussed below. All operating revenues are pledged for repayment of outstanding debt service.

In addition, the Authority applies the provisions of GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, to provide a better matching of revenues and expenses. The effect of this policy has been to defer certain outflows of resources, which will be recovered through future revenues in accordance with the Authority's rate model, and to record deferred inflows of resources for revenue collected through current rates for costs expected to be incurred in the future. The effects of the Authority's accounting policies are discussed further in Note 3.

In fiscal year 2021, the Authority implemented GASB Statement No. 84, *Fiduciary Activities*. This statement resulted in reporting fiduciary funds financial statements with the Authority's financial statements.

In fiscal year 2022, the Authority implemented GASB Statement No. 87, *Leases*. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

The Authority adopted the requirements of the guidance effective July 1, 2021 and has applied the provisions of this standard to the beginning of the earliest comparative period presented.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### **(b) Capital Assets**

On July 1, 1985, ownership of the MDC's sewer and waterworks personal property was transferred to the Authority. Pursuant to the Enabling Act, ownership of the real property of the MDC sewer and waterworks systems was not transferred from the Commonwealth to the Authority; however, the Authority has the right to use, improve, maintain, and manage that property. In addition, ownership of the real and personal property of the watershed system remains with the Commonwealth; however, the Authority has the right to utilize the water therefrom for water supply purposes.

The personal property, together with the rights to the real property and watershed system, was recorded at its estimated fair value of \$2,331,465 (including certain construction projects which were in progress as of July 1, 1985), based upon an appraisal performed by valuation specialists. Property, plant, and equipment acquired or constructed since July 1, 1985, is stated at acquisition cost, and includes the expenditure of capital grants in aid of construction.

Betterments and major renewals are capitalized and included in capital asset accounts, while expenditures for maintenance and repairs are charged to expense when incurred. The cost of depreciable assets and related accumulated depreciation is eliminated from the accounts when such items are disposed of or otherwise retired.

The Authority's capitalization threshold is \$100.

### **(c) Depreciation**

The Authority provides for depreciation by use of the straight-line method. Depreciation is intended to distribute the cost of depreciable properties, including those financed by capital grants in aid of construction, over the following estimated average useful lives:

	<u>Years</u>
Plant and Equipment, Water and Sewerage Systems	5-100
Motor Vehicles and Equipment	5
Furniture and Fixtures	7
Leasehold Improvements	3-5

### **(d) Revenue Recognition**

The Authority recognizes revenue as amounts become collectible from its customers for water and sewer services provided. The majority of the Authority's billings to cities and towns are subject to, in the event of nonpayment, the local aid intercept allowed by the Enabling Act.

### **(e) Net Position**

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use the restricted resources first, then unrestricted as they are needed.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### **(f) Cash and Cash Equivalents**

#### Authority:

The Authority's policy is to treat unrestricted investments with a maturity date of three months or less when purchased as cash equivalents for purposes of the statements of cash flows. Restricted cash and cash equivalents are combined with investments on the statements of net position and shown separately on the statements of cash flows as an investing activity.

#### Pension and OPEB Trust:

Cash and cash equivalents is considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition.

### **(g) Payments in Lieu of Taxes**

The Enabling Act authorizes and directs the Authority to pay to the DCR (formerly the MDC) Division of Watershed Management, who in turn remits payment to each city or town in which land of the Quabbin watershed and Ware River watershed is located. Each such payment is equal to the amount which the respective city or town would receive in property taxes, based upon the fair value of such land if such land were not tax exempt.

### **(h) Investments**

#### Authority:

Investments are recorded at fair value, other than certain investments that are recorded at net asset value (NAV). The Authority uses an independent pricing source to determine the fair value of investments at quoted market prices. Changes in fair value are included in non-operating investment income in the Statements of Revenues, Expenses, and Changes in Net Position. Investments that are measured at NAV are the investments in the Massachusetts Municipal Depository Trust (MMDT) which is a 2a7-like external investment pool that is overseen by the Massachusetts State Treasurer and whose fair value of each share is equal to the number of shares; thus NAV is equal to \$1.00 per share.

#### Pension and OPEB Trusts:

Investments are reported at fair value. Fair values of investments are based on quotations from a national securities exchange, except for the Systems' investment in the Pension Reserves Investment Trust (PRIT), hedge funds, private equity and real estate investments, for which fair values are estimated as detailed below.

#### *External Investment Pool (PRIT)*

PRIT is an external investment pool comprised of securities measured at various fair value measurements. The investment pool is managed by the Pension Reserves Investment Management (PRIM) Board and the System's share of the pool is reported at fair value in the System's financial statements. A complete copy of PRIT's separately issued financial statements can be obtained from PRIM Board at 84 State Street, Boston, MA 02109, or by visiting the PRIM Board's website at <http://www.mapension.com/public-records/records-of-interest/>.

#### *Hedge Funds, Private Equity, and Real Estate Investments*

The fair values of these types of investments have been determined by third party investment managers using Net Asset Value (NAV) per share (or its equivalent) on the System's ownership interest in the pool or partner's capital.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

**(i) *Compensated Absences***

Employees of the Authority may accumulate unused sick time of which 30% will be paid in cash upon retirement from the Authority. The liability for vacation leave is based on the amount earned but not used; for sick leave, it is based on a percentage of the amount accumulated at the statement of net position dates. The liability for both amounts is calculated based on the pay or salary rates in effect at the statements of net position dates.

**(j) *Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Authority. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**(k) *Postemployment Benefits Other Than Pensions (OPEB)***

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trust and additions to/deductions from the OPEB Trust's fiduciary net position have been determined on the same basis as they are reported by the Authority. For this purpose, the Authority recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

**(l) *Use of Estimates***

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**(m) *Reclassifications***

Certain reclassifications were made to the fiscal year 2021 financial statements to conform to the fiscal year 2022 presentation.

**MASSACHUSETTS WATER RESOURCES AUTHORITY**

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

**(3) Regulatory Assets and Deferred Inflows from Regulatory Activities**

In accordance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, regulatory assets and deferred inflows from regulatory activities that result primarily from differences between depreciation on property, plant, and equipment not financed by grants or capital contributions, which is recovered through rates as principal payments on debt service, and from amounts determined by the Board to be utilized in a subsequent year to reduce customer billings (rate stabilization).

A summary of the activity of regulatory assets and deferred inflows for fiscal years 2022 and 2021 is as follows:

	<u>Sewer</u>	<u>Water</u>	<u>Total</u>
Balance - June 30, 2020 - net	\$ 220,676	\$ (41,034)	\$ 179,642
Difference Between Depreciation of Capital Assets Not Financed by Grants or Capital Contributions, and Debt Service in Excess of Interest Expense	(89,762)	(64,325)	(154,087)
Other, Net	<u>(9,007)</u>	<u>616</u>	<u>(8,391)</u>
Balance - June 30, 2021 - net	121,907	(104,743)	17,164
Difference Between Depreciation of Capital Assets Not Financed by Grants or Capital Contributions, and Debt Service in Excess of Interest Expense	(144,324)	84,909	(59,415)
Other, Net	<u>(7,371)</u>	<u>(2,502)</u>	<u>(9,873)</u>
Balance - June 30, 2022 - net	<u><u>\$ (29,788)</u></u>	<u><u>\$ (22,336)</u></u>	<u><u>\$ (52,124)</u></u>

The net balance at June 30, 2022 and 2021 is presented on the statements of net position as follows:

	<u>2022</u>	<u>2021</u>	<u>Current year change</u>
Regulatory Assets	\$ -	\$ 59,415	\$ (59,415)
Deferred Inflows from Regulatory Activities	<u>(52,124)</u>	<u>(42,251)</u>	<u>(9,873)</u>
Net Change	<u><u>\$ (52,124)</u></u>	<u><u>\$ 17,164</u></u>	<u><u>\$ (69,288)</u></u>

The balance in the rate stabilization reserve was \$40,294 and \$41,544 at June 30, 2022 and 2021, respectively.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### (4) Deposits and Investments

#### (1) Authority (Excluding the Pension and OPEB Trusts):

The following represents essential risk information about the Authority's deposits and investments:

##### *(a) Custodial Credit Risk – Deposits*

The custodial credit risk for deposits and certificates of deposit is the risk that, in the event of a bank failure, the Authority's deposits may not be recovered. Per the Authority's policy, credit risk is minimized by diversifying portfolio of funds and ensuring the amounts held in deposits is adequate to accommodate the reasonable cash needs of the Authority.

The bank deposits at June 30, 2022 and 2021 were \$73,634 and \$70,419, respectively. Of these amounts, \$73,384 and \$70,169, were exposed to custodial credit risks as uninsured and uncollateralized.

##### *(b) Investments*

The Authority is authorized by its general bond resolution to invest in obligations of the U.S. Treasury, its agencies and instrumentalities, bonds, or notes of public agencies or municipalities, bank time deposits, guaranteed interest contracts, Massachusetts Municipal Depository Trust (MMDT) accounts, interest rate swap agreements, and repurchase agreements. All investments are held by a third-party in the Authority's name. These investments are recorded at fair value.

##### *(c) Credit Ratings*

All debt securities purchased, such as FNMA, FHLMC, and FHLB issues have historically had a credit rating of AAA or they have been collateralized to AAA. On August 8, 2011, Standard & Poor's reduced the credit rating for these agencies to AA+. The reduction in credit rating did not affect the Authority's bond covenants or escrow requirements.

The Massachusetts Municipal Depository Trust funds are not rated.

The general bond resolution limits the Authority to investing in securities that are rated in the three highest rating categories as defined by S&P and Moody's or other rating agencies.

##### *(d) Concentration Risk*

At June 30, 2022 and 2021, the Authority had investments with the issuer, Federal Home Loan Bank (FHLB), which totaled 5.9% and 6.4%, respectively, of the total investments.

At June 30, 2022 and 2021, the Authority had investments with the issuer, Federal Farm Credit Banks (FFCB), which totaled 8.3% and 7.9%, respectively, of the total investments.

At June 30, 2022 and 2021, the Authority had investments with the issuer, Federal National Mortgage Association (FNMA), which totaled 9.3% and 9.2%, respectively of total investments.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

**(e) Interest Rate Risk**

The following is a listing of the Authority's fixed income investments and related maturity schedule as of June 30, 2022 and 2021:

<b>June 30, 2022</b>					
<b>Investment maturities (in years)</b>					
Investment Type	Fair Value	<1	1-3	4-8	>9
Mass Municipal Depository Trust	\$ 549,956	\$ 549,956	\$ -	\$ -	\$ -
U.S. Agency Obligations	218,423	-	49,872	168,551	-
U.S. Treasury Bills	21,956	21,956	-	-	-
Total	<u>\$ 790,335</u>	<u>\$ 571,912</u>	<u>\$ 49,872</u>	<u>\$ 168,551</u>	<u>\$ -</u>
<b>June 30, 2021</b>					
<b>Investment maturities (in years)</b>					
Investment Type	Fair Value	<1	1-3	4-8	>9
Mass Municipal Depository Trust	\$ 630,964	\$ 630,964	\$ -	\$ -	\$ -
U.S. Agency Obligations	248,556	4,067	41,543	136,836	66,110
U.S. Treasury Bills	22,348	-	22,348	-	-
Total	<u>\$ 901,868</u>	<u>\$ 635,031</u>	<u>\$ 63,891</u>	<u>\$ 136,836</u>	<u>\$ 66,110</u>

The majority of the Authority's investments are held in short-term money market funds and long-term investments in U.S. agency obligations that are held in the debt service reserve funds where the intent is to hold until maturity.

**(f) Investment Values**

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Debt securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The Authority has no securities classified in Level 3. The investment in MMDT, an external investment pool, is measured at \$1.00 per share – the net asset value determined by the pool.

The Authority has the following recurring fair value measurements as of June 30, 2022 and 2021: U.S. Government agency obligations \$218,423 and \$248,556 (Level 2), respectively, U.S. Treasury Bills \$21,956 and \$22,348 (Level 2), respectively, and MMDT \$549,956 and \$630,964 (NAV), respectively. There are no withdrawal restrictions or unfunded commitments related to the MMDT investment.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### **(g) Restricted Investments by Fund**

The following summarizes restricted investments as of June 30, 2022 and 2021 by various funds and accounts established by the Authority for debt covenants and other purposes:

	<u>2022</u>	<u>2021</u>
Restricted Investments:		
Construction	\$ 115,765	\$ 228,037
Debt Service Reserves	138,932	155,383
Debt Service Principal and Interest	351,900	322,062
Debt Service - Revenue Redemption	22,588	25,532
Operating Reserve	47,274	45,861
Rate Stabilization Reserve	40,294	41,544
Revenue	38,257	48,146
Combined Reserves - Renewal and Replacement Reserve	10,000	10,000
Combined Reserves - Insurance Reserve	13,806	13,141
Insurance Related Escrow Deposits	7,293	7,419
Total Restricted Investments	<u>\$ 786,109</u>	<u>\$ 897,125</u>

No funds were withdrawn from the Operating Reserve, Renewal and Replacement Reserve or Insurance Reserve during the fiscal year. Changes in investment balances reflect changes in fair value.

### **(2) Pension Trust:**

#### **(a) Deposits – Custodial Credit Risk**

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the Pension Trust's deposits may not be recovered. The Pension Trust's policy for custodial credit risk of deposits is to rely on FDIC insurance. As of December 31, 2021 and 2020, the Pension Trust was not exposed to custodial credit risk. The carrying value of the Pension Trust's deposits totaled \$10 and \$10 at December 31, 2021 and 2020, respectively.

#### **(b) Investment Summary**

The Pension Trust's investments at December 31, 2021 and 2020 are presented below. All investments are presented by investment type, with debt securities presented by maturity (using segmented time distribution).

**(c) Investments – Interest Rate Risk of Debt Securities**

Interest rate risk for debt securities is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The Pension Trust’s policy for interest rate risk is the duration of the portfolio should be consistent with the appropriate indices. Unless otherwise agreed to, the duration of the portfolio must be within 25% of the appropriate benchmark.

**(d) Investments – Custodial Credit Risk**

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the Pension Trust will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Pension Trust’s policy for custodial credit risk of investments intends that all investments are either insured and/or registered in the name of the Pension Trust. As of December 31, 2021 and 2020, the Pension Trust was not exposed to custodial credit risk.

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

**(e) Investments – Credit Risk of Debt Securities**

Credit risk for debt securities is the risk that an issuer or other counterparty to a debt security will not fulfill its obligations. The Pension Trust’s policies for credit risk of debt securities include the minimum quality rating at the time of purchase cannot be below a rating of CCC. Non-rated securities may comprise 10% of the portfolio, provided that the applicable manager determines that, if such an issue was rated, it would be allowed under the above limitation and that the non-rated issue is deemed to be below BAA (investment grade). Compliance with credit ratings provided by Moody’s, Standard & Poor’s and Fitch is not sufficient for an issue to be deemed an appropriate investment. The managers are responsible for making an independent analysis of the credit-worthiness of securities.

As of December 31, 2021 and 2020, the credit quality ratings of the Pension Trust’s money market mutual funds are unrated by any nationally recognized statistical rating organization. As of December 31, 2021 and 2020, the credit quality ratings of the Pension Trust’s fixed income securities, excluding U.S. Treasury securities of \$27,328 and \$56,623 respectively, are as follows:

Quality Ratings *	2021	2020
	Fixed income securities	
A+	\$ 781	\$ -
A	734	3,441
A-	2,723	10,094
BBB+	6,778	10,667
Unrated	124,815	88,112
Total	\$ 135,831	\$ 112,314

\*Per Standard and Poors, a nationally recognized statistical rating organization.

**(f) Deposits and Investments – Foreign Currency Risk**

Foreign currency risk is the risk that fluctuations in exchange rates will adversely affect the fair value of an investment or a deposit. The Pension Trust does not have a policy regarding foreign currency risk. As of December 31, 2021 and 2020, the Pension Trust had indirect exposure to foreign currency risk for certain equity investments issued by foreign countries in the amount of \$131,027 and \$122,551, respectively.

**(g) Investments – Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of the Pension Trust’s investment in a single issuer. The Pension Trust’s policy for concentration of credit risk is that not more than 5% of the fair value of the Pension Trust’s portfolio can be invested in the debt obligations of any one issuer, with the exception of securities issued by the U.S. Government, or its agencies, which may be held without limitation. As of December 31, 2021 and 2020, the Pension Trust was not exposed to concentration of credit risk.

### (h) Fair Value Measurements

The Pension Trust categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Pension Trust has the following recurring fair value measurements as of December 31, 2021 and 2020:

December 31, 2021		Fair Value Measurements Using	
Investments by Fair Value Level	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2 )
<u>Debt Securities:</u>			
Money market mutual funds	\$ 19,159	\$ 19,159	\$ -
Fixed income securities	38,344	27,328	11,016

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Equity securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities relationship to benchmark quoted prices.

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented on the following table.

December 31, 2021				
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Private equity (1)	\$ 52,703	27,944	N/A <sup>(1)</sup>	N/A <sup>(1)</sup>
Real estate (2)	59,604	4,639	N/A <sup>(2)</sup>	N/A <sup>(2)</sup>
Hedge funds (3)	28,071	-	Quarterly	90-100 days
Pooled Equity Funds (4)	207,199	-	1-30 days	1 - 60 days
Pooled Fixed Income Funds (5)	124,815	-	1-30 days	1 - 15 days
Total Investments Measured at the NAV	\$ 472,392			
December 31, 2020				
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Private equity (1)	\$ 50,667	32,600	N/A <sup>(1)</sup>	N/A <sup>(1)</sup>
Real estate (2)	50,075	4,805	N/A <sup>(2)</sup>	N/A <sup>(2)</sup>
Hedge funds (3)	24,243	-	Quarterly	90-100 days
Total Investments Measured at the NAV	\$ 124,985			

(1) Private Equity Funds: This type includes 24 private equity funds that consist primarily of limited partnership interests in corporate finance and venture capital funds. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the Pension Trust's ownership interest in partners' capital. The investments can never be redeemed with the funds. Distributions from each of these funds will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 1 to 10 years.

(2) Real Estate Funds: This type includes 10 real estate funds that invest primarily in U.S. commercial real estate and value added opportunities. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the Pension Trust's ownership interest in partners' capital. There are two investments with approximate values of \$25,600 and \$24,500 at December 31, 2021, and \$20,600 and \$20,100 at December 31, 2020, for which the investments can be redeemed quarterly, with a redemption notice period of 90 days. The remaining investments can never be redeemed with the funds. Distributions from each of these funds will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 1 to 12 years.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

- (3) Hedge Funds: This type includes 3 hedge funds that pursue multiple strategies to diversify risks and reduce volatility. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the Pension Trust's ownership interest in partners' capital. There are three investments with approximate values of \$700, \$13,200 and \$14,100 at December 31, 2021 and \$800, \$11,500 and \$12,000 at December 31, 2020. The investments can be redeemed quarterly, with a redemption notice period of 90 days, 90 days, and 100 days, respectively.
- (4) Pooled Equity Funds: This type includes 7 funds with capital pooled from multiple investors in order to achieve mutual return objectives through investments in various types of equity securities. The fair value of pooled equity funds is measured at NAV by multiplying the pool's share price by the number of shares held.
- (5) Pooled Fixed Income Funds: This type includes 5 funds with capital pooled from multiple investors in order to achieve mutual return objectives through investments in fixed income securities. The fair value of pooled fixed income funds is measured at NAV by multiplying the pool's share price by the number of shares held.

### (3) OPEB Trust:

#### **(a) Deposits – Custodial Credit Risk**

The custodial credit risk for deposits and certificates of deposit is the risk that, in the event of a bank failure, the OPEB Trust's deposits may not be recovered.

The bank deposits at June 30, 2022 and 2021 were \$4,857 and \$6,235, respectively. Of these amounts, \$4,607 and \$5,985, were exposed to custodial credit risks as uninsured and uncollateralized.

#### **(b) Investments Summary**

The Trustees have adopted a formal cash and investment policy. All funds will be invested with the Commonwealth of Massachusetts Pension Reserves Investment Trust (PRIT) fund through the State Retiree Benefits Trust Fund.

The investment in the PRIT fund is not subject to custodial or concentration risk and the Trust does not have policies to address such risks. The investment in PRIT is subject to foreign currency risk to the extent exchange rates will adversely affect the fair value of PRIT's international investments. The Trust does not have a policy to address this risk. The PRIT fund is unrated. PRIT does not place any limitations or restrictions on withdrawals.

**MASSACHUSETTS WATER RESOURCES AUTHORITY**

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Investments are recorded at fair value. The Trust categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. Debt securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The Trust has no debt securities classified in Level 3.

The OPEB Trust's investment in the PRIT fund, totaling \$59,072 and \$55,529 at June 30, 2022 and 2021, respectively, is classified as Level 2.

**(5) Bond Resolution Reserves**

The components of the reserves funded from revenues and required by the general and supplemental bond resolutions at June 30, 2022 and 2021 are as follows:

<u>Reserves</u>	<u>Sewer</u>	<u>Water</u>	<u>Total</u>	
			<u>2022</u>	<u>2021</u>
Renewal and Replacement	\$ 2,544	\$ 1,457	\$ 4,001	\$ 4,001
Insurance	7,000	7,000	14,000	14,000
Operating	30,653	16,624	47,277	45,865
Total	<u>\$ 40,197</u>	<u>\$ 25,081</u>	<u>\$ 65,278</u>	<u>\$ 63,866</u>

A renewal and replacement reserve of \$6,000 was established through grant receipts transferred from the Commonwealth in 1985 and is included in restricted net position at June 30, 2022 and 2021.

Total	<u>\$ 4,826,434</u>	<u>\$ 210,438</u>	<u>\$ 331,183</u>	<u>\$ 4,705,689</u>	<u>\$ 247,882</u>

The Authority is required to establish water and sewer rates and charges at a level sufficient to provide, among other things, primary and subordinated debt service coverage ratios of 120% and 110%, respectively. For the year ended June 30, 2022, the Authority had primary and subordinated debt service coverage ratios of 233% and 124%, respectively.

Under the Authority's General Revenue Bond Resolution, all revenues, together with the investment earnings thereon, except to the extent that such earnings are required to be deposited in the Rebate Fund pursuant to a Supplemental Resolution, are pledged for payment of the Bonds.

The Act of 1984 imposes a limitation of \$600,000 on the total amount of bonds and notes which may be outstanding at any one time. The Authority has requested increases in its debt limit as necessary to allow for issuances of bonds in amounts required to finance the capital program. The state legislature increased the debt limit to \$6,450,000.

On December 22, 2021, the Authority issued General Revenue Bonds, 2021 Series B for \$60,635 and General Revenue Refunding Bonds (Federally Taxable), 2021 Series C for \$687,395.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

The proceeds from the Series B bonds were used to permanently finance outstanding tax-exempt commercial paper of \$75,000. The interest rate on these bonds are 5%.

The proceeds from the Series C bonds were used to advance refund \$53,885 of General Revenue Bonds 2014 Series D, \$47,590 of General Revenue Bonds 2016 Series B, \$43,830 of General Revenue Refunding Bonds 2013 Series A and \$72,870 of General Revenue Refunding Bonds 2014 Series F, \$317,700 of General Revenue Refunding Bonds 2016 Series C, \$52,190 of General Revenue Refunding Bonds 2016 Series D. The refunded bonds are considered defeased in-substance.

The interest rate of these bonds range from 0.53% to 2.97%. The cash flow required to make principal and interest payments on the funding bonds is approximately \$82,027 less than the debt service requirements of the refunded bonds. The economic gain (the difference between the present values of the debt service payments on the old and new debt) obtained from this refunding is \$65,908.

On August 20, 2020, the Authority issued General Revenue Bonds, 2020 Series B for \$160,000. The proceeds from these bonds will be used to finance new construction projects. The interest rate on these bonds is 5%.

On November 1, 2015, the Authority entered into a revolving credit agreement with a bank. The Authority shall repay the loan at the Commitment Termination Date, December 29, 2023. The revolving loan automatically converts into a term loan if the Authority does not extend or refund the agreement by this date. Interest is payable at the Securities Industry and Financial Markets Association (SIFMA) index rate, beginning January 19, 2021 and, prior to this date, at 80% of the 1 month LIBOR rate. These rates were 0.98% and 0.10% at June 30, 2022 and 2021, respectively. Initial drawdown was \$100,000, which was reduced to \$79,000 at June 30, 2016. The balance was further reduced in fiscal year 2018 to \$53,000 using the proceeds from the General Revenue Bonds, 2018 Series B. During fiscal year 2022, the balance was increased to \$73,000.

### ***Synthetic Fixed Rate Swap Transactions***

In connection with several of its bond issues, the Authority has entered into various interest rate swap agreements to reduce the impact of changes in interest rates on its variable rate debt. Under these agreements, the Authority pays a fixed interest rate (ranging from 4.0% to 6.9%) and receives interest from the swap counterparties at a variable rate (either SIFMA rate or a percentage of LIBOR). The SIFMA rate is based on the seven-day high-grade market index of tax-exempt variable rate demand obligations.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Item	Objective	Effective Date	Current Notional Amount	Termination Date	Fixed Payable Swap Rate	Variable Receivable Swap Rate	Fair Value at June 30,	
							2022	2021
A	Hedge changes in cash flows on the 2008 Series A Bonds	April 4, 2011	\$ 94,600	August 1, 2030	6.585%	67% LIBOR Plus 0.13%	\$ (1,945)	\$ (8,402)
B	Hedge changes in cash flows on the 2008 Series E Bonds	October 28, 2008	94,600	August 1, 2030	6.935	SIFMA	(4,122)	(13,182)
C	Hedge changes in cash flows on the 2008 Series A and 2008 Series E Bonds	August 1, 2030	70,400	August 1, 2037	6.585	67% LIBOR Plus 0.13%	(2,264)	(4,930)
D	Hedge changes in cash flows on the 2008 Series C Bonds	May 29, 2008	26,695	November 1, 2026	3.994	SIFMA	(734)	(2,797)
E	Hedge changes in cash flows on the 2008 Series C and 2012 Series G Bonds	May 29, 2008	17,800	November 1, 2026	4.033	SIFMA	233	(612)
Total							<u>\$ (8,832)</u>	<u>\$ (29,923)</u>

All of the above are pay-fixed interest rate swap agreements. Under these interest rate swap agreements, the Authority incurred net interest expense of \$14,025 and \$16,652 in fiscal year 2022 and fiscal year 2021, respectively.

For the swap effective on April 4, 2011, with a current notional amount of \$94,600, the fixed rate paid by the Authority is as follows: 4.120% from execution until August 2013, 5.144% from August 2013 until August 2019, and 6.585% from August 2019 until August 2030.

For the swap execution on October 28, 2008, with a current notional amount of \$94,600, the fixed rate paid by the Authority is as follows: 4.470% from execution until August 2013, 5.494% from August 2013 until August 2019, and 6.935% from August 2019 until August 2030.

The aggregate fair value balance of the derivative instruments at June 30, 2022 and 2021 is \$(8,832) and \$(29,923), respectively, and is reflected on the Authority's statements of net position as a liability for derivative instruments. This liability is offset by deferred outflows from derivative instruments. The original notional amounts of the interest rate swaps totaled \$535,895.

The fair values of the interest rate swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps. The interest rate swaps are classified in Level 2 of the fair value hierarchy, as outlined in Government Accounting Standards Board Statement No. 72, *Fair Value Measurement and Application*, as valued using a market approach that considers benchmark interest rates.

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### ***Risk Disclosure***

*Credit Risk* - Because all of the Authority's swaps rely upon the performance of the third parties who serve as swap counterparties, the Authority is exposed to credit risk, or the risk that a swap counterparty fails to perform according to its contractual obligations. The appropriate measurement of this risk at the reporting date is the fair value of the swaps, as shown in the columns labeled Fair Value in the tables above. To mitigate credit risk, the Authority maintains strict credit standards for swap counterparties. The Authority monitors swap counterparties' credit ratings by the three rating agencies (Fitch Ratings, Moody's Investors Service, and S&P Global Ratings). Collateral may be obtained from any counterparty that does not maintain a set credit rating. Since all derivatives are in a liability position, there is no amount exposed to credit risk.

The following represents the credit ratings (Fitch) of the counterparties as of June 30, 2022:

<u>Derivative instrument</u>	<u>Counterparty credit rating</u>
Derivative A	A+
Derivative B	AA-
Derivative C	A+
Derivative D	A+
Derivative E	A

*Basis Risk* - The Authority is exposed to basis risk because the floating index the Authority receives on the swaps (SIFMA or 67% of LIBOR) may be different than the basis of the variable rate on the associated bonds. Should this occur, the expected savings may not be realized.

*Termination Risk* - The Authority or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. If, at the time of termination, a derivative is in a liability position, the Authority would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

*Rollover Risk* - The Authority can be exposed to rollover risk on hedging derivative instruments that are hedges of debt that terminate prior to the maturity of the debt. The Authority currently has no rollover risk. When derivative instruments A and B terminate in 2030, those bond series will then be hedged by derivative instrument C.

**MASSACHUSETTS WATER RESOURCES AUTHORITY**

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

***Swap Payments and Associated Bonds Outstanding***

Bonds outstanding include certain variable rate bonds where the Authority pays a fixed interest rate and receives interest at a variable rate from the counterparty. The table below presents the debt service requirements and related net swap payments for these bonds. As rates vary, variable rate interest payments will vary.

Using rates as of June 30, 2022, debt service requirements of the hedged variable rate bonds and net swap payments, assuming current interest rates remain constant, were as follows:

<b>Fiscal Year Ending June 30:</b>	<b>Variable-rate</b>		<b>Interest Rate</b>	<b>Total</b>
	<b>Principal</b>	<b>Interest</b>	<b>Swaps, Net</b>	
2023	\$ 67,300	\$ 1,681	\$ 9,409	\$ 78,390
2024	15,100	1,208	5,791	22,099
2025	16,000	1,086	6,112	23,198
2026	16,600	958	5,316	22,874
2027	40,495	765	4,165	45,425
2028–2032	7,800	2,443	15,613	25,856
2033–2037	55,600	1,394	9,888	66,882
2038	14,800	8	323	15,131
<b>Total</b>	<b>\$ 233,695</b>	<b>\$ 9,543</b>	<b>\$ 56,617</b>	<b>\$ 299,855</b>

***Demand Bonds***

Included in variable rate long-term debt of \$527,165 is \$313,820 of subordinated variable rate demand obligations (VRDOs). The bonds were issued on various dates from 1999 through 2008. Subordinated VRDOs are subject to purchase on the demand of the holder at a price equal to principal plus accrued interest. The ability of the Authority to purchase such bonds, if not remarketed, is secured through letters of credit and standby bond purchase agreements with various nationally recognized financial institutions that expire between December 2023 and November 2026. The VRDOs are classified as long-term debt because the liquidity agreement for each series contains term out provisions that, if demand is made to repurchase the bonds, calls for a two to three year amortization to repay the bonds.

In 2014, \$114,755 of 2014 Series A and B General Revenue Refunding Bonds were issued as direct-purchase bonds, to be held by the purchaser for a specific period of time and are not subject to purchase or remarketing at the demand of the holder and therefore do not require a letter of credit or standby bond purchase agreement. The \$50,000 of Series A and \$13,130 of Series B have been purchased through August 2025 and August 2022, respectively. In addition, the 2012 Series E General Revenue Refunding Bonds, totaling \$52,685, has a three year term out provision beginning at the expiration date and the 2018 Series A & D General Revenue Refunding Bonds, totaling \$97,530, have three year term out provisions beginning at the expiration dates.

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

***Defeased Debt***

At June 30, 2022, the following bonds outstanding are considered defeased in-substance:

<b>Description</b>	<b>Redemption date</b>	<b>Redemption price</b>	<b>Outstanding Principal amount</b>
2012 Series A	2022	100	120,740
2012 Series B	2022	100	86,775
2013 Series A	2022 - 2023	100	53,255
2014 Series D	2022 - 2024	100	64,310
2014 Series F	2023 - 2024	100	100,140
2016 Series B	2026	100	47,590
2016 Series C	2022 - 2023 and 2026	100	334,575
2016 Series D	2024 and 2026	100	55,515
2017 Series B	2023 and 2026	100	3,735
2017 Series C	2022 - 2023 and 2026	100	18,555
2018 Series B	2024 and 2025	100	6,700
2018 Series C	2024	100	4,400
2019 Series B	2023 - 2026	100	6,235
2020 Series B	2024	100	3,825

The proceeds and available funds were deposited in irrevocable trusts with escrow agents in an amount which will provide for payment of interest due to the redemption date and redemption of the defeased bonds outstanding on such date. The defeased portion of such debt, accrued interest thereon, and related unamortized issuance and discount costs were removed from the statements of net position in an in-substance defeasance transaction.

In June 2022, the Authority used funds on hand to defease \$15,740 of the 2014 Series F, \$11,135 of the 2016 Series C, \$2,490 of the 2016 Series D and \$1,305 of the 2017 Series C General Revenue Refunding Bonds outstanding.

In September 2021, the Authority used funds on hand to defease \$2,500 of the 2019 Series B General Revenue Bonds and \$8,875 of the 2014 Series F General Revenue Refunding Bonds outstanding.

In June 2021, the Authority used funds on hand to defease \$2,345 of the 2017 Series B, \$6,700 of the 2018 Series B and \$3,825 of the 2020 Series B General Revenue Bonds and \$640 of the 2013 Series A and \$12,500 of the 2017 Series C General Revenue Refunding Bonds outstanding.

In September 2020, the Authority used funds on hand to defease \$1,690 of the General Revenue Bonds 2014 Series D and \$2,655 of the 2014 Series F, \$2,750 of the 2016 Series C, \$4,750 of the 2017 Series C and \$4,400 of the 2018 Series C General Revenue Refunding Bonds outstanding.

**MASSACHUSETTS WATER RESOURCES AUTHORITY**

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

At June 30, 2022, outstanding bonds that are redeemable before their scheduled due dates are as follows:

<b>Description</b>	<b>Redemption date</b>	<b>Redemption price</b>	<b>Outstanding Principal amount</b>
2014 Series F	August 2024	100	\$ 4,270
2016 Series B	August 2026	100	7,185
2016 Series C	August 2026	100	292,950
2016 Series D	August 2026	100	46,235
2017 Series B	August 2027	100	55,775
2017 Series C	August 2027	100	114,795
2018 Series B	August 2025	100	20,430
2018 Series B	August 2028	100	75,940
2019 Series B	August 2029	100	70,265
2019 Series E	August 2029	100	23,625
2019 Series E	August 2044	100	14,770
2019 Series F	August 2029	100	180,180
2020 Series B	August 2030	100	118,325
2021 Series B	August 2031	100	21,500
2021 Series C	August 2041	100	312,520
2021 Series C	August 2044	100	11,920

The variable rate General Revenue Bonds are subject to redemption prior to maturity at the option of the Authority in whole or in part, on any interest payment date for bond Series 1999B and on any business day for bond Series 2008A, 2008C, 2008E, 2012G, 2014A, 2014B, 2018A and 2018D, respectively. Series 2012E is subject to redemption prior to maturity on any interest payment date after November 15, 2014.

During fiscal year 2021, the Authority executed loan agreements with the Massachusetts Clean Water Trust providing for 2021 Series A Sewer and Water loans in the principal amounts of \$25,148 and \$25,290, respectively. These loans replaced \$25,148 of interim sewer loans and \$15,000 of interim water loans executed in fiscal year 2020. All proceeds for these loans were received by June 30, 2021.

Federal and Commonwealth subsidies for purposes of offsetting principal payments aggregating \$18,357 will be recognized as capital grants in aid of construction over the term of the loans.

Interest is payable semiannually on all debt, except on the commercial paper, on which interest is payable upon maturity and the General Revenue Bonds and General Revenue Refunding Bonds with variable interest rates on which interest is payable monthly. The Senior General Revenue Bonds and the Senior General Revenue Refunding Bonds are collateralized equally and ratably by a lien and pledge on substantially all of the Authority's cash and revenues, except the operating fund.

June 30, 2022 and 2021

(Dollars in thousands)

The subordinated debt series, including the commercial paper interest are collateralized equally and ratably by a subordinated pledge on substantially all of the Authority’s revenues and cash and investments, except the operating, senior debt service, and debt service reserve funds. Premiums, discounts, issuance costs, and the excess of reacquisition price over the carrying amount of the defeased debt are being amortized over the lives of the respective issues.

The amounts of long-term debt, principal, and interest payable in future fiscal years are as follows:

<u>Year Ending June 30:</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 288,903	\$ 160,844	\$ 449,747
2024	296,694	151,324	448,018
2025	289,962	139,791	429,753
2026	294,181	128,972	423,153
2027	288,229	117,331	405,560
2028–2032	1,319,415	433,671	1,753,086
2033–2037	912,176	235,181	1,147,357
2038–2042	698,360	73,883	772,243
2043–2047	179,729	7,599	187,328
Total	<u>\$ 4,567,649</u>	<u>\$ 1,448,596</u>	<u>\$ 6,016,245</u>

At June 30, 2022, the Authority had no commercial paper notes outstanding.

Commercial paper activity during fiscal years 2022 and 2021 consisted of the following:

	<u>2022 Beginning balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>2022 Ending balance</u>
1.14% Commercial Paper	\$ 75,000	\$ -	\$ 75,000	\$ -
Total	<u>\$ 75,000</u>	<u>\$ -</u>	<u>\$ 75,000</u>	<u>\$ -</u>
	<u>2021 Beginning balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>2021 Ending balance</u>
1.72% Commercial Paper	\$ 75,000	\$ -	\$ 75,000	\$ -
1.14% Commercial Paper	-	75,000	-	75,000
Total	<u>\$ 75,000</u>	<u>\$ 75,000</u>	<u>\$ 75,000</u>	<u>\$ 75,000</u>

**(7) Intergovernmental Loans**

The Authority has entered into various interest-free loan agreements with certain member communities. Under these agreements, the Authority loaned these communities \$69,689 and \$51,845 in fiscal years 2022 and 2021, respectively, to be received in five or ten equal annual installments.

The long-term portion of these loans at June 30, 2022 and 2021 is \$191,219 and \$178,874, respectively, and is included in other assets. The loans due within one year total \$37,581 and \$35,926 at June 30, 2022 and 2021, respectively. This program is designed to assist member communities with sewer and water systems rehabilitation.

**(8) Capital Assets**

Capital assets at June 30, 2022 and 2021 consisted of the following:

(Dollars in thousands)

**(9) Leases**

The Authority has entered into a 30-year building lease related to the Chelsea maintenance facility. Annual installments range between \$1,538 and \$2,837, plus interest at 7.83%; due dates range from July 2022 through May 2032.

Maturity analysis of future lease payments at June 30, 2022 are as follows:

<u>Fiscal Year Ending June</u>	<u>Interest Expense</u>	<u>Liability Reduction</u>	<u>Total</u>
2023	\$ 1,794	\$ 1,538	\$ 3,332
2024	1,554	1,663	3,217

	<u>\$ 9,880</u>	<u>\$ 22,138</u>	<u>\$ 32,018</u>

**(10) Retirement Benefits**

**(a) Plan Description**

The Enabling Act provided for the establishment of the Massachusetts Water Resources Authority Employees' Retirement System (the Plan), a contributory single-employer retirement system that is separate from the State Employees Retirement System. The Plan is a defined benefit pension plan covering those employees not employed by the MDC prior to July 1, 1985. Complete financial statements for the Plan can be obtained from the Authority's administrative offices at Charlestown Navy Yard, 100 First Avenue, Boston, MA 02129.

**(b) Benefits Provided**

The Plan provides retirement, disability and death benefits. For employees hired prior to April 2, 2012, the annual amount of the retirement allowance is based on the member's final three-year average salary multiplied by (1) the number of years and full months of creditable service at the time of retirement and (2) a percentage based on age at retirement in accordance with a schedule provided by state law. Assuming normal retirement at age 65, this percentage is 2.5%, which is reduced for individuals who retire prior to age 65 to reflect the longer pay out period.

For employees hired on or after April 2, 2012, the annual amount of the retirement allowance is based on the member's final five-year average salary multiplied by (1) the number of years and full months of creditable service at the time of retirement and (2) a percentage based on age at retirement in accordance with a schedule provided by state law. Assuming normal retirement at age 67, this percentage is 2.5%.

**MASSACHUSETTS WATER RESOURCES AUTHORITY**

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Employees hired prior to April 2, 2012, may elect early retirement after 20 years of service or at any time after attaining age 55 with 10 years of eligible service. Plan members who become permanently and totally disabled may be eligible to receive a disability retirement allowance. The amount of benefits to be received depends on several factors, including the member’s age, compensation, veteran status, years of service and whether or not the disability is work-related. In addition, certain death benefits exist for beneficiaries of employees who die in active service.

All MDC personnel who became employees of the Authority on July 1, 1985, and were members of the State Employees Retirement System, retained their membership in that system. The Authority is not liable for retirement allowances paid to or on account of these employees. Funding of the pension liability of the State Employees Retirement System is the obligation of the Commonwealth. Employees covered by this plan become 100% vested after 10 years of service.

**(c) Employees Covered by Benefit Terms**

At December 31, 2021 and 2020 (the date of the Plan’s latest actuarial valuation), the following employees were covered by the benefit terms:

	<u>2021</u>	<u>2020</u>
Retired Participants and Beneficiaries Receiving Benefits	763	702
Inactive Participants Entitled to a Return of their Employee Contributions	104	89
Inactive Participants with a Vested Right to a Deferred or Immediate Benefit	39	34
Active Participants	<u>1,044</u>	<u>1,103</u>
Total	<u><u>1,950</u></u>	<u><u>1,928</u></u>

**(d) Contributions**

Contributions made by employees are based upon a percentage of employee base pay (5% for employees hired before December 31, 1974, 7% for employees hired between January 1, 1975 and December 31, 1983, 8% for employees hired between December 31, 1983, and June 30, 1996, and 9% for employees hired after July 1, 1996). Additionally, certain employees earning in excess of \$30 contribute an extra 2% of their salary effective January 1, 1979. Employees receive full payment of contributions upon withdrawal from the Plan and 50% of interest earned for employees with five to nine years of service or 100% of interest earned for employees with 10 or more years of service.

The Authority’s 2022 and 2021 contributions to the plan were based on an amount approved by the Retirement Board and the Authority’s board of directors, which is based on an actuarially determined amount. The Authority’s Enabling Act requires funding to be made in accordance with the Retirement Board’s recommendation. In fiscal year 2022 the Authority made a \$11.2 million required contribution. In fiscal year 2021 the Authority made a \$10.0 million required contribution.

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

**(e) Net Pension Liability (Pension Trust Reporting)**

Investment Policy:

Deposits and investments made by the Pension Trust are governed by Chapter 32 of the MGL. The Pension Trust has the ability to invest in equity securities, corporate bonds, annuities and other specified investments in accordance with state laws and regulations.

The Retirement Board has the authority for establishing and amending investment policy decisions. Based on the investment objectives and constraints of the Pension Trust, and based on an annual review of the asset allocation and asset classes, the Retirement Board will specify a long-term target allocation for each class of permissible assets. These targets will be expressed as a percentage of the total portfolio, and will have ranges surrounding them, allowing for the portfolio to maintain policy through market fluctuations.

The long-term target allocations are intended as strategic goals. Thus, it is permissible for the overall Pension Trust’s asset allocation to deviate from the long-term target, as would likely occur during manager transitions, asset class restructurings, and other temporary changes in the Pension Trust. Surplus cash flows are utilized to maintain the asset management structure. Should these cash flows not be sufficient to reallocate the plan according to policy, the transfer of assets may occur between managers. At least annually, the Retirement Board reevaluates the portfolio weightings by asset class and adjustments are made accordingly. The following identifies the asset allocation policy as of December 31, 2021 and 2020:

<b>Asset Class</b>	<b>December 31, 2021</b>	<b>December 31, 2020</b>
	<b>Target Allocation</b>	<b>Target Allocation</b>
Domestic Equity	31%	26%
International Equity	19	21
Real Estate	10	10
Private Equity	10	10
Hedge Funds	6	6
Fixed Income	24	27
Total	100%	100%

Rates of Return:

For the years ended December 31, 2021 and 2020, the annual money-weighted rate of return on investments, net of investment expense, was 16.70% and 12.78%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net pension liability of the Pension Trust at December 31, 2021 and 2020, were as follows:

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

	<b>2021</b>	<b>2020</b>
Total Pension Liability	\$ 748,702	\$ 712,864
Plan Fiduciary Net Position	728,673	648,376
Net Pension Liability	\$ 20,029	\$ 64,488
Plan's Fiduciary Net Position as Percentage of the Total Pension Liability	97.32%	90.95%

*Actuarial assumptions:* The total pension liability was determined by actuarial valuations as of January 1, 2022 and January 1, 2021, and update procedures were used to roll back the total pension liability to the December 31, 2021 and 2020 measurement dates. The following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3%
Salary Increases	Based on years of service, starting at 5.75% at 0 years of service decreasing to 4% after 9 years of service
Discount Rate	6.90% at December 31, 2021 and 2020, respectively
Cost of Living Adjustments	Adjusted to 3% of the first \$15,000 at December 31, 2021 and 2020 as permitted under Massachusetts Chapter 188 of the Acts of 2010

Mortality Rates (January 1, 2022):

Disabled Retiree:	Pub-2010 General Disabled Retiree Amount - weighted Mortality Tables set forward one year projected generationally using Scale MP-2021

Mortality Rates (January 1, 2021):

Pre-Retirement:	Pub-2010 General Employee, Healthy Retiree and Contingent Survivor Amount - weighted Mortality Tables projected generationally using Scale MP-2020
Healthy Retiree:	Pub-2010 General Employee, Healthy Retiree and Contingent Survivor Amount - Weighted Mortality Tables projected generationally using Scale MP-2020
Disabled Retiree:	Pub-2010 General Disabled Retiree Amount - weighted Mortality Tables set forward one year projected generationally using Scale MP-2020

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

*Rates of return on investments:* The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation are summarized as follows:

<u>Asset Class</u>	<u>Long-Term Expected Rate of Return (%)</u>	
	<u>December 31, 2021</u>	<u>December 31, 2020</u>
Domestic Equity	6.11	6.28
International Equity	6.49 - 8.12	7.00 - 8.82
Real Estate	3.72	3.5
Private Equity	9.93	10.11
Hedge Funds	2.63	2.35
Fixed Income	0.38 - 2.48	0.38 - 2.97

**(f) Discount Rate**

The discount rate used to measure the total pension liability was 6.90% for December 31, 2021 and 2020. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that the Authority contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

MASSACHUSETTS WATER RESOURCES AUTHORITY

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

**(11) Other Postemployment Benefits (OPEB)**

**(a) Plan Description**

In addition to providing the pension benefits described, the Authority provides postemployment health care and life insurance benefits for retired employees through the Group Insurance Commission (GIC). The GIC is a quasi-independent state agency that administers an agent multi-employer defined benefit OPEB plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the Authority and can be amended by the Authority. The plan issues a separate financial report that can be obtained by contacting the Massachusetts Water Resources Authority, Finance Division, 100 First Avenue, Boston, MA 02129.

In April 2015, the Authority established the MWRA OPEB Irrevocable Trust. The Trust was established for the sole purpose of providing for the advance funding of future costs of retired employee health insurance and other benefits provided to retirees. An initial deposit of \$10.8 million was made to the trust upon establishment of the trust. The balance of the trust was \$63.9 million and \$61.8 million at June 30, 2022 and June 30, 2021, respectively.

**(b) Plan Membership**

At June 30, 2022 and 2021, plan membership consisted of the following:

	<u>2022</u>	<u>2021</u>
Inactive plan members or beneficiaries currently receiving benefits	1,034	916
Inactive plan members entitled to but not yet receiving benefits	33	33
Active plan members	<u>877</u>	<u>943</u>
Total	<u><u>1,944</u></u>	<u><u>1,892</u></u>

**(c) Benefits Provided**

The Authority provides medical, prescription drug, mental health/substance abuse and life insurance to retirees and their covered dependents. All active employees who retire from the Authority and meet the eligibility criteria will receive these benefits.

**(d) Contributions**

Retirees who retired on or before July 1, 1994 contribute 10% of the cost of the health plans, as determined by the GIC. Those who retired after July 1, 1994 contribute 15% of the cost of the health plan and those who retired after October 1, 2009 contribute 20% of the cost of the health plan, as determined by the GIC. The Authority contributes the remainder of the health plan costs on a pay-as-you-go basis.

**(e) Investments**

*Investment policy.* The assets are invested by the Trust with the Commonwealth of Massachusetts Pension Reserves Investment Trust (PRIT) fund. The Trust's Board of Trustees may vote to approve a different investment vehicle, at its discretion. The following was the PRIT fund's asset allocation at June 30, 2022 and 2021:

<b>Asset Class</b>	<b>June 30, 2022 Target Allocation</b>	<b>June 30, 2021 Target Allocation</b>
Domestic Equity	22%	22%
International Equity	16	17
Fixed Income	23	23
Private Equity	15	14
Real Estate	10	10
Other	14	14
Total	100 %	100 %

*Concentrations.* No investment in any one organization represented 5% or more of the Trust's investments.

*Rate of return.* For the year ended June 30, 2022 and 2021, the annual money-weighted rate of return on investments, net of investment expense was -4.06% and 27.37%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for changing amounts actually invested.

**(f) Net OPEB Liability (Trust Reporting)**

The components of the net OPEB liability at June 30, 2022 and 2021, were as follows:

	<b>2022</b>	<b>2021</b>
Total OPEB Liability	\$ 113,757	\$ 136,805
Plan Fiduciary Net Position	63,929	61,764
Net OPEB Liability	\$ 49,828	\$ 75,041
Plan's Fiduciary Net Position as Percentage of the Total OPEB Liability	56.20%	45.15%

*Actuarial assumptions.* The total OPEB liability was determined by actuarial valuations as of December 31, 2021 and 2019, and update procedures were used to roll forward the total OPEB liability to June 30, 2022 and 2021 measurement dates, respectively. The following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Inflation	3.0%
Salary increases	5.75%, decreasing over 9 years to an ultimate level of 4.0%
Discount rate and investment rate of return	2022 - 6.75%, net of OPEB plan investment expense, including inflation; 2021 - 7.00%, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates (2022)	Non-Medicare Medical and Prescription Drug: 6.52% for 2021, then 7.06%, then 6.83%, then 6.59%, then 6.36%, then 6% decreasing by 0.25% for 6 years to an ultimate rate of 4.50% Medicare Medical and Prescription Drug: 3%, then 4.49%, then 4.57%, then 4.66%, then 4.75%, then an ultimate rate of 4.50%
Healthcare cost trend rates (2021)	7.0% for 2019, decreasing 0.5% per year for 3 years to 5.5%, then decreasing by 0.5% each year to an ultimate rate of 4.5%
Mortality Rates (2022):	Mortality rates were based on the Pub-2010 General Employee, Healthy Retiree and Contingent Survivor Headcount- Weighted Mortality Tables projected generationally using Scale MP-2021 for retirees and Pub-2010 General Healthy Retiree Headcount-Weighted Mortality Tables set forward one year projected generationally using Scale MP-2021 for the disabled.
Mortality Rates (2021):	Mortality rates were based on the Pub-2010 General Employee, Healthy Retiree and Contingent Survivor Headcount- Weighted Mortality Tables projected generationally using Scale MP-2020 for retirees and Pub-2010 General Healthy Retiree Headcount-Weighted Mortality Tables set forward one year projected generationally using Scale MP-2020 for the disabled.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2022 and 2021 (see discussion of the Trust's investment policy) are summarized in the following table:

Asset Class	Long-Term Expected Rate of Return (%)	
	June 30, 2022	June 30, 2021
Domestic Equity	6.11%	6.28
International Equity	6.49 - 8.12	7.00 - 8.82
Fixed Income	0.38 - 2.48	0.38 - 2.97
Private Equity	9.93	10.11
Real Estate	3.72	3.50
Other	2.63 - 3.44	2.35 - 3.45

**MASSACHUSETTS WATER RESOURCES AUTHORITY**

Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

*Discount rate.* The discount rate used to measure the total OPEB liability was 6.75% and 7.0% for June 30, 2022 and 2021, respectively. The projection of cash flows used to determine the discount rate assumed that Authority contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**(g) Changes in the Net OPEB Liability (Employer Reporting)**

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
	(a)	(b)	(a) - (b)

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending June 30:</u>	<u>Amount</u>
2023	\$ (16,719)
2024	(14,853)
2025	(7,405)
2026	(4,928)
Total	<u>\$ (43,905)</u>

## (12) Commitments and Contingencies

### (a) General

The Authority's capital improvement program continues to proceed. As part of this program, the Authority has entered into a number of contracts for the design and construction of infrastructure and improvements to its facilities. Commitments under these contracts aggregated approximately \$773,532 at June 30, 2022.

The Authority's operating and construction plans are designed to comply with the Federal District Court's schedule of actions. The Authority has incurred capital expenditures of approximately \$8,906,000 from fiscal years 1986 through 2022, including those projects required to comply with the Federal District Court's schedule. The Authority anticipates spending an additional \$293,044 on these projects through fiscal year 2023. These capital expenditures have been forecasted based upon certain preliminary assumptions and estimates, which may change significantly as design and construction of the necessary facilities proceed. Funding is expected to come from various federal and state grants, as available and approved, and from the Authority's debt proceeds. To date, federal appropriations for the Boston Harbor Project have aggregated \$810,000.

### (b) Boston Harbor Case

The Authority continues to be a defendant in the federal Boston Harbor Case. The federal action was originally brought in 1985 by the United States on behalf of the United States Environmental Protection Agency (EPA) and by certain citizens' groups for Clean Water Act violations. As part of the Boston Harbor Case, the Authority was required to undertake certain corrective actions to meet wastewater treatment, discharge and combined sewer overflow (CSO) requirements, including the completion of new and improved primary and secondary treatment facilities at Deer Island. Beyond these major improvements to its wastewater treatment capabilities, the Authority also was required to improve water quality by its adoption of a Long Term CSO Control Plan (LTCP) which was comprised of 35 projects, the last three of which were completed on time by the close of calendar year 2015. In March 2016, the federal district court formally received the Authority's 2015 annual CSO project report, officially noting completion of LTCP projects.

In March 2006, the Authority had reached agreement with the United States and the Massachusetts Department of Environmental Protection (DEP) on the scope and schedule for the remaining CSO projects which was filed with the Court as part of a joint motion to amend the Court Schedule. In April 2006, the Court allowed the joint motion and issued an Order with a schedule. In addition to filing biannual compliance reports, the April 2006 court schedule required the Authority to conduct a post-construction performance assessment to verify whether the levels of CSO control included in the LTCP have been achieved.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

The Authority commenced the performance assessment in 2017, with the final performance assessment report originally due in December 2020. At the request of the Authority, with the assent of EPA and DEP, the Court extended the time for the Authority to submit the final report to December 2021.

On December 30, 2021, the Authority filed its Performance Assessment Report and Interim Update (“Final Report”) with the Court. The Final Report documents the substantial reduction in CSO discharge volumes over the last several decades. The Authority also reported that there are certain outfalls where CSO discharge estimates indicated higher CSO activity than the LTCP goals. As of the end of 2021, the LTCP goals for average annual CSO activation and volume were met, or materially met, at 70 of the 86 CSO outfalls for which performance targets were defined. Of the 16 remaining CSO outfalls that did not meet the LTCP goals, The Authority developed plans to enable six of these CSO outfalls to meet LTCP goals by 2024. With respect to the remaining 10 CSO outfalls, the Authority identified potentially feasible alternatives that may enable four of these outfalls to achieve LTCP volume and activation goals. There are at least six CSO outfalls that remain challenging.

Prior to the filing of the Final Report the Authority had commenced discussions with EPA, DEP and the Conservation Law Foundation (“CLF”) to determine whether an agreement could be reached on a framework and path forward in the case. Ultimately, an agreement was reached between the parties for a three-year extension in the case, to December 2024. The agreement includes the following components for the three years: (i) completion of improvements at six outfalls that are expected to bring them into compliance with their respective LTCP goals by December 2024; and continued focused investigations by the Authority on the remaining 10 outfalls; (ii) filing annual reports by the Authority with the Court, and periodic meetings between the Authority and EPA/DEP, and the Authority and other stakeholders; and (iii) by December 2024, the filing of a supplemental performance assessment report by the Authority. On February 4, 2022, the Authority filed an assented-to motion with the Court seeking its approval of the agreement. The Court adopted the parties’ recommendation and amended the Court schedule to add additional milestones through December 2024.

As part of the above referenced March 2006 agreement, DEP agreed to reissue and EPA agreed to approve five consecutive variances of no more than three years duration each, through the year 2020, for the Charles River and Alewife Brook/Upper Mystic River that are consistent with and limited to the requirements in the Authority’s LTCP. Most recently, DEP issued (and EPA approved) new variances for the period of September 1, 2019, through August 31, 2024. Among other conditions, the variances require the development of an updated CSO control plan. On September 22, 2022, the Authority submitted a request to DEP for a 36-month extension to the schedule for submission of the deliverables associated with the updated plan. The Authority requested that DEP move forward with a process that would support the extension request and ensure that variances are in place for an appropriate period beyond submission of its final updated control plan - to at least August 2027. It is expected that the request will be subject to a full public review process.

There has been no imposition of penalties by the Court against the Authority on the merits of the claims originally asserted in the Boston Harbor Case to date. The Court always retains the right to order remedial action and to assess penalties.

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### *(c) Deer Island Submarine Power Cable*

In 2004, the United States Army Corps of Engineers (Corps) notified Boston Edison Co. (NSTAR), its subsidiary Harbor Energy Electric Company (HEEC), and the Authority of allegations that each, as permittees, were in violation of certain depth requirements contained in a permit (MA BOSS 198900530, dated August 31, 1989) which authorized the installation of a submarine electric power cable running under the channel bed of Boston Harbor extending from South Boston to Deer Island, used to provide electric power for Deer Island operations. The Corps alleged that the power cable, in places, had been installed at depths less than those required by the permit and would eventually interfere with a project of harbor dredging known as the Boston Harbor Deep Draft Navigation Improvement Project (the “Project”) which would allow deep-draft cargo vessels to dock in Boston Harbor.

The Authority’s position was that it is not the owner of the cable, that it was not involved in the planning, design, location or installation of the cable, that it had no meaningful knowledge, participation in or control over the misplacement of the cable and therefore should have no legal responsibility to move it or relocate it. The Authority also maintained that its status as a “permittee” in the Corps’ permit differed substantially from that of NSTAR and HEEC as the former merely lent its name to an application for the permit solely because it would allow permit review by the Corps to be expedited. The cable is vitally important to The Authority as it provides the primary means by which electricity is delivered to Deer Island to power its wastewater operations.

#### Settlement Efforts

Efforts to resolve the dispute concerning compliance with the permit and responsibility for the cable protection costs date back to approximately 2005. Discussions during these prior years among the interested parties over the years produced only a proposed method intended by NSTAR and HEEC for protection of the cable from the Project which would have entailed carefully exposing the cable, placing concrete mats over it followed by backfilling of sediments over both the cable and mats without either moving it or burying the cable deeper in the channel. The Authority maintained that it has no financial responsibility whatsoever for the costs of either protecting or relocating the cable.

#### Litigation and Conditional Settlement

United States of America v. NSTAR Electric Company d/b/a Eversource Energy, Harbor Electric Energy Co., and Massachusetts Water Resources Authority, U.S. District Court, District of Massachusetts, C.A. No. 16-11470-RGS As a result of the need to achieve even deeper dredging depths than the Army Corps had initially recommended in 2016 and the likelihood that those depths might not be practicably reachable especially in light of the addition of the proposal to add protective concrete mats, the United States, acting on behalf of the Corps, commenced a lawsuit in July 2016 in the federal district court in Boston against the Authority, NSTAR and HEEC under the Rivers and Harbors Act and under the Clean Water Act asking the federal district court to determine the permittees’ non-compliance with the 1990 permit and to assess penalties for the obstruction caused by the mis-located cable in two shipping channels of Boston Harbor. In that lawsuit, the Corps also asked that the Authority, NSTAR and HEEC, each named as permittees under the permit, be enjoined from further maintaining the cable in its present location.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

The Authority filed its Answer to the Complaint, including cross claims against co-defendants NSTAR and HEEC, in August 2016. Following a failed motion to dismiss both the Complaint and the Authority's cross-claims, NSTAR and HEEC eventually filed their Answer to the Complaint and cross-claimed against the Authority upon a theory of indemnification that the Authority had the primary obligation as the sole customer of the cable to pay any and all expenses necessary to correct the location of the cable improperly installed by HEEC.

Resolution of the federal court litigation was conditionally accomplished over the period of May through July 2017 when it became imperative that the Corps be able to determine whether it would be able to save the federal appropriation dollars for the Project without the aid of or reliance upon the federal court's enforcement powers. The federal action was stayed by the Court in late summer 2017 as a result of a May 2017 agreement (the "Agreement") between the Authority and HEEC pursuant to which HEEC was to undertake the design and installation of a suitable replacement power cable for the Authority's exclusive use in conveying electric power to the Deer Island Treatment Plant. On the basis of the Agreement, the parties to the federal action entered into a stipulation, subsequently entered as an order of the Court in July 2017, which imposes obligations solely upon HEEC to complete the installation of the replacement power cable by December 31, 2019. HEEC completed the installation and energizing of the replacement power cable in August 2019, ahead of the deadline, and the old cable has been removed.

The Agreement stipulates that the Authority pay 50% of the cost of the cable, less a credit of \$17,500, at the in-service date of the new cable or earlier if the parties mutually agree to such advance payment; The credit that is intended to compensate the Authority for the early decommissioning of the existing power cable and a \$9 million cap for additional decommissioning costs. The credit will be applied at a rate of \$2,500 over a period of seven years, commencing in 2020. The estimated cost of the replacement power cable project, as contained in the Agreement, is \$114,000 and the remainder of the total cost of the cable will be paid by the Authority to HEEC in accordance with the provisions for electric service set forth in the tariff established by the Massachusetts Department of Public Utilities (DPU). As of July 2021, HEEC estimates the project costs to be approximately \$119,300, exclusive of any project costs for unknown new conditions or requirements imposed on HEEC to close out the project or secure dismissal of the federal court action. The Authority and HEEC agreed, and DPU approved, project costs through August 31, 2021, of \$116,458. The credit of \$17,500 was provided by HEEC to the Authority. The Authority, upon agreement by HEEC, has prepaid \$55,805 of its estimated share of the cost of the cable.

The Agreement provides that the cost recovery period for the new cable will be thirty years, at least the useful life of the cable. Annual tariff cost of the cable is estimated between \$4,500 and \$7,300 in the next ten years. In addition to the tariff cost, operating and maintenance costs will also be charged.

All claims of all parties to the federal court lawsuit have been stayed pending satisfaction of the obligations of HEEC and NSTAR under the Stipulation and Order. Completion of all obligations under the Stipulation and Order will result in the eventual dismissal with prejudice of all such claims. On September 23, 2022, HEEC filed a status report with the Court regarding outstanding permit issues with the Corps. The Court granted HEECs request for a thirty day extension to resolve any outstanding issues with the Authority.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Notes to Financial Statements

June 30, 2022 and 2021

(Dollars in thousands)

### **(d) Industrial Pretreatment Program**

On April 27, 2022, CLF filed a complaint in the United District Court of Massachusetts alleging violations by the Authority under the Clean Water Act, 33 U.S.C. §§ 1251-1376, its National Pollutant Discharge Elimination System (NPDES) Permit and EPA regulation 40 CFR Part 403, due to what CLF alleges are deficiencies in the administration of the Authority's Industrial Pretreatment Program from fiscal years 2017 through 2021 to ensure that the Industrial Users who discharge into the Authority's system remain in compliance. CLF alleges, among other things, that the Authority has failed to take appropriate enforcement action under its Industrial Pretreatment Program against Industrial Users. In the lawsuit, CLF seeks declaratory and injunctive relief, and civil penalties of up to \$56 per day for each violation plus attorneys' fees and expenses, but no total amount was specified in the complaint. The Authority denies CLF's allegations and maintains that its Industrial Pretreatment Program complies with its NPDES Permit and with associated laws and regulations. The Authority believes that its pretreatment program is well run and that it takes well-reasoned, rational, and appropriate enforcement actions under its regulatory program. On July 19, 2022, the Authority filed a motion to reassign the case to Judge Stearns, who presides over the Boston Harbor Case, and on September 23, 2022, the Authority filed a motion to dismiss the case.

### **(e) Miscellaneous**

The Authority is also a defendant in several legal actions and administrative proceedings arising out of its operation, maintenance, and improvement of the water and sewer systems under its care. It is the opinion of management that any judgments or settlements that may result from these actions will not have a materially adverse effect upon the Authority.

## **(13) Risk Management**

The Authority is exposed to various risks of loss. The risk management program involves insurance and self-insurance related to property, general liability (including automobile, marine and employers' liability), excess liability, public officials' liability, workers' compensation, unemployment liability, and employee health care and life insurance.

Buildings, plants, and equipment are insured on an all risk replacement basis to the extent that losses exceed \$2,500 per occurrence, up to an aggregate limit of \$300,000. The Authority maintains insurance coverage for general liability, automobile liability, marine liability, and employers' liability to the extent that losses exceed \$2,500 per occurrence, up to a limit of \$25,000. In addition to the primary liability insurance, the Authority maintains excess liability policies with additional limits of \$75,000. The Authority is self-insured for workers' compensation claims up to \$1,000 per occurrence and maintains excess workers' compensation insurance coverage with a limit of \$25,000 per occurrence. The Authority also maintains public officials' liability insurance with a limit of \$5,000 per occurrence with a \$1,000 self-insured retention. All insurance policies are renewed on an annual basis. The amount of claim settlements has not exceeded insurance coverage in any of the previous three fiscal years.

## **(14) Subsequent Events**

In July 2022, the Authority drew an additional \$17 million from the 2015C revolving loan. Also, in October 2022 the Authority defeased \$27 million of outstanding debt from available funds and issued \$50 million in commercial paper.

**Notes to Required Supplementary Information**

Valuation Date: Actuarial determined contributions for fiscal year 2022 are determined with the January 1, 2020 actuarial valuation.  
 Actuarial Cost Method: Entry age normal  
 Amortization Method: Total appropriation increases 12.05% per year.  
 Remaining Amortization Period: As of July 1, 2020, 10 years for the remaining unfunded liability  
 Asset Valuation Method: Market value of assets as reported in the Plan's annual statement less unrecognized return in each of the last five years.  
 Unrecognized return is equal to the difference between the actual market value return and the expected market value return and is recognized over a five-year period, further adjusted, if necessary, to be within 10% of the market value.

Actuarial Assumptions:

Investment Rate of Return	7.10%
Discount Rate	7.10%
Inflation Rate	3.00%
Projected Salary Increases	Based on years of service, ranging from 5.75% at 0 years of service decreasing to 4.00% after 9 years of service.
Cost of Living Adjustments	3% on first \$15,000

Plan Membership:

Retired Participants and Beneficiaries Receiving Benefits	672
Inactive Participants Entitled to a Return of their Employee Contributions	75
Inactive Participants with a Vested Right to a Deferred or Immediate Benefit	37
Active Participants	1,105
<b>Total</b>	<b>1,889</b>

**Notes to Schedule**

*Changes in Assumptions - June 30, 2022* : The generational mortality improvement scale was updated from Scale MP-2019 to Scale MP-2021. The per capita health costs and contributions were updated to reflect current premiums and the costs in the most recent Commonwealth OPEB valuation report. The trend assumptions were revised, per the most recent Commonwealth OPEB valuation report. The discount rate was lowered from 7.00% to 6.75%.

*Changes in Assumptions - June 30, 2021* : mortality assumptions and retirement rates were updated in order to be consistent with the companion pension plan

*Changes in Plan Provisions - June 30, 2022* : The Fallon plans are no longer offered by the GIC. The migration away from these plans has been accounted for through the medical trend assumption.

Data is being accumulated annually to present 10 years of the reported information.

See accompanying independent auditors' report

(Unaudited)

(Dollars in Thousands)

	Fiscal year ended June 30,									
	2022	2021	2020	2019	2018	2017	2016	2015	2014	2013
Actuarially determined contribution	\$ 5,772	9,144	8,997	11,812	11,400	10,948	14,996	14,564	15,621	14,482
Contributions in relation to the actuarially determined contribution	9,529	11,506	10,885	10,656	10,093	9,723	9,804	14,852	3,493	2,813
Contribution deficiency (excess)	<u>(3,757)</u>	<u>(2,362)</u>	<u>(1,888)</u>	<u>1,156</u>	<u>1,307</u>	<u>1,225</u>	<u>5,192</u>	<u>(288)</u>	<u>12,128</u>	<u>11,669</u>
Covered payroll	\$ 111,297	106,879	103,778	98,238	94,816	86,475				
Contributions as a percentage of covered-employee payroll	8.6%	10.8%	10.5%	10.8%	10.6%	11.2%				

**Notes to Schedule**

Methods and assumptions used to determine contributions rates:

- Actuarial cost method
- Amortization method
- Asset valuation method
- Inflation 3%
- Discount rate 6.75%
- Healthcare cost trend rates
- Non-Medicare Medical and Prescription Drug: 6.52% for 2021, then 7.06%, then 6.83%, then 6.59%, then 6.36%, then 6% decreasing by 0.25% for 6 years to an ultimate rate of 4.50%
- Medicare Medical and Prescription Drug: 3%, then 4.49%, then 4.57%, then 4.66%, then 4.75%, then an ultimate rate of 4.50%

Mortality

Mortality rates were based on the Pub-2010 General Employee, Healthy Retiree and Contingent Survivor Headcount- Weighted Mortality Tables projected generationally using Scale MP-2021 for retirees and Pub-2010 General Healthy Retiree Headcount-Weighted Mortality Tables set forward one year projected generationally using Scale MP-2021 for the disabled.

# Statistical Section

Winsor Dam Intake at Quabbin Reservoir

This part of the Massachusetts Water Resources Authority's Fiscal Year 2021 Annual Comprehensive Financial Report presents detailed information to provide context to the information in the financial statements, note disclosures, required supplementary information and supplemental schedules.

## CONTENTS

### Financial Trends (92–95)

These schedules contain trend information to help the reader understand how MWRA's financial performance and well-being have changed over time.

### Revenue Capacity (96–99)

These schedules contain information to help the reader assess MWRA's primary revenue source and community assessments.

### Debt Capacity (100–103)

These schedules present information to help the reader assess the affordability of the MWRA's current level of outstanding debt and MWRA's ability to issue additional debt in the future.

### Demographic and Economic Information (104–109)

These schedules offer demographic and economic indicators to help the reader understand the environment within which MWRA's financial activities take place.

### Operating Information (110–112)

These schedules contain service and infrastructure data to help the reader understand how the information in MWRA's financial report relates to the services the MWRA provides and the activities it performs.

# MASSACHUSETTS WATER RESOURCES AUTHORITY

## Capital Asset Statistics by Function

Backside of the Wachusett Dam

### WATER SYSTEM

- ◆ 2 protected reservoirs
  - Quabbin
  - Wachusett
- ◆ 2 water treatment facilities
  - John J. Carroll
  - William A. Brutsch
- ◆ 385 miles of distribution infrastructure, including aqueducts, deep rock tunnels, and pipeline
- ◆ 12 active storage reservoirs and standpipes
- ◆ 13 active pumping stations
- ◆ Average Daily flow: 200 mgd
- ◆ Safe yield: 300 mgd
- ◆ Treatment Capacity: 405 mgd
- ◆ Percentage of capacity utilized: 67%\*  
*\*based on safe yield*

Clinton Wastewater Treatment Plant

### WASTEWATER SYSTEM

- ◆ 274 miles of sewer pipelines and cross-harbor tunnels
- ◆ 11 pump stations
- ◆ 1 screening facility
- ◆ 1 gate house
- ◆ 6 CSO treatment/storage facilities
- ◆ 2 wastewater treatment plants
  - Deer Island Treatment Plant
  - Clinton Advanced Wastewater Treatment Plant
- ◆ 4 remote headworks
- ◆ 1 Pellet Plant residuals processing
- ◆ Average daily flow: 365 mgd
- ◆ Peak wet weather capacity: 1,270 mgd
- ◆ Percentage of capacity utilized on average: 30%
