

PUBLIC MEETING

Combined Sewer Overflow (CSO) Control Planning Update for the Charles River and Alewife Brook/Mystic River

Did you know that heavy rainfall can cause our sewer systems to overflow and pollute our rivers? Did you know that there are multiple tools available to minimize these overflows?

The Cities of **Cambridge** and **Somerville** and the **Massachusetts Water Resources Authority** are working together to create plans for future sewer improvements that will reduce pollution in our rivers.

Join us virtually to see the latest results of our study on ways to reduce combined sewer overflows, and how these will impact water quality in our rivers

We can provide you an interpreter in any language for free. To request an interpreter, please contact us at mgomez@somervillema.gov or call 311 (617-666-3311) at least 7 days in advance of this event.

Persons with disabilities who need auxiliary aids or reasonable modifications should please contact Adrienne Pomeroy in advance at 617-625-6600 x 2059 or ADA@somervillema.gov.
